Re: Technically Complete Letter with Conditions on St. Anthony Mine Site Closure-Closeout Plan (CCOP), a 90% Design Report, prepared by United Nuclear Corporation/GE, St. Anthony Mine, Cibola County, New Mexico. Permit Tracking No. MK006RE.

Dear Mr. Hauer,

The New Mexico – Mining and Minerals Division (MMD) received, reviewed and provided comments on the St. Anthony Mine Closure Closeout Plan (CCP) submitted by General Electric and United Nuclear Corporation (GE/UNC) on September 30, 2025. MMD also received GE/UNC's most recent response to MMD and Agency comments.

MMD hereby deems the application for St. Anthony Mine's CCP, Permit Tracking No. MK006RE, Technically Complete with the following conditions:

1. Addressing matters arising with NMED and/or the Water Quality Control Commission to ensure timely delivery of Written Environmental Determination letter to MMD.
2. Submission of reclamation cost estimate and updated mine financial assurance to MMD.

For further questions or clarifications, please contact Abimbola Ojekanmi at (505) 490-0726 or by email at abimbola.ojekanmi@emnrd.nm.gov.

Sincerely,

/s/ Abimbola Ojekanmi
