

PUBLIC NOTICE

The Lordsburg Mining Company
Application for Permit Revision for Standby Status
Banner Mine and Mill; Permit No. HI001RE
P.O. Box 129
Lordsburg, NM 88045

The Lordsburg Mining Company, Inc. (LMC) has submitted an application to the State of New Mexico Energy, Minerals and Natural Resources Department, Mining and Minerals Division (MMD) pursuant to New Mexico Administrative Code (NMAC) regulations (NMAC 19.10.5 and 19.10.9) requesting a revision of the Banner Mine and Mill Existing Mine Permit No. HI001RE to place the facility on standby status. The Banner Mill, constructed in 2009 to process metallic ores from the region, is currently idle. The permit area (approx. 14 acres) is located in portions of Sections 14 and 23, T23S, R19W, N.M.P.M. near Lordsburg, in Hidalgo County, New Mexico. . All facilities are located at the Banner Mill site on LMC's private lands. Financial assurance has been provided to MMD by LMC to complete reclamation following cessation of operations in accordance with the Regulations.

Copies of LMC's application for permit revision to place the facility on standby status as well as Permit No. HI001RE are on file and available for viewing during normal business hours at:

New Mexico Energy, Minerals and Natural Resources Department
Mining and Minerals Division
1220 South St. Francis Drive
Santa Fe, New Mexico 87505

And also at:
The Hidalgo County Public Library
208 E. 3rd Street
Lordsburg, NM 88045
(575) 542-9646

These documents can also be viewed at or downloaded from MMD's Website at:

<http://www.emnrd.state.nm.us/MMD/MARP/PermitHI001RE.html>

Written requests for a public hearing with regard to the application must be submitted to the Director, Mr. Fernando Martinez, at the above address within 30 days after the newspaper publication of this notice.

Any interested person may request that the Director of the Mining and Minerals Division (Director) conduct a public hearing on this proposed application pursuant to 19.10.9.904 NMAC. Requests may be made of the Director at the above address within 30 days of the date of the newspaper publication of this notice. If hearing is timely requested, the Director shall set a hearing unless the request is clearly frivolous. The Director may hold a public hearing absent any request.

Any public hearing pursuant to this application shall be held at a venue in the Lordsburg area and accessible to the general public. If the director determines to hold a public hearing, the date, time and location of such hearing shall be advertised in the Hidalgo County Herald Newspaper.

Written comments must be received by the Director prior to the close of the hearing record following any public hearing that is held. If no public hearing is held, written comments will be considered only if they are received by the Director within 60 days after the date of this newspaper publication or within 60 days after the person filing the comments received notice of the application, whichever is later.

NOTICIA PÚBLICA

La Compañía Minera de Lordsburg
Aplicación Para Permiso de Revisión Para Status de Espera
Mina Banner y Molino, Permiso Núm. HI001RE
P.O. Box 129
Lordsburg, NM 88045

La Compañía Minera de Lordsburg, Inc. (CML) ha presentado una solicitud al Estado de Nuevo México de Energía, Minerales y Recursos Naturales, División de Minas y Minerales (DMM) en conformidad con el Código Administrativo (NMAC) regulaciones de Nuevo México (NMAC 19.10.5 y 19.10.9) para solicitar una revisión del permiso Núm. HI001RE para colocar las instalaciones en estado de espera de la Mina Banner y Molino existentes. El Molino Banner, construido en el 2009 para procesar minerales metálicos de la región, se encuentra actualmente inactivo. La zona de permiso (aprox. 14 hectáreas) se encuentra en partes de las Secciones 14 y 23, T23s, R19W, N.M.P.M. cerca de Lordsburg, en el condado de Hidalgo, estado de Nuevo México. Todas las instalaciones del Molino se encuentran en tierras privadas de CML. Garantía financiera se ha proporcionado a DMM por CML para completar la recuperación tras el cese de actividades en conformidad con los Reglamentos.

Copias de la solicitud de CML para la revisión del permiso para colocar las instalaciones en estado de espera, así como el Permiso Núm. HI001RE son archivados y disponibles para su visualización durante el horario normal en:

New Mexico Energy, Minerals and Natural Resources Department
Mining and Minerals Division
1220 South St. Francis Drive
Santa Fe, New Mexico 87505

Y también en la:
The Hidalgo County Public Library
208 E. 3rd Street
Lordsburg, NM 88045
(575) 542-9646

Estos documentos también se pueden ver en, o descargarse de la página web de DMM en
<http://www.emnrd.state.nm.us/MMD/MARP/PermitHI001RE.html>

Las solicitudes por escrito para una audiencia pública en relación con la solicitud deberán presentarse al Director, Sr. Fernando Martínez, en la dirección arriba dentro de los 30 días después de la publicación de periódico de este aviso.

Cualquier persona interesada podrá solicitar que el Director de la División de Minas y Minerales (Director) llevar a cabo una audiencia pública sobre esta solicitud en conformidad con los reglamentos 19.10.9.904 NMAC. Las solicitudes se pueden hacer al Director en la dirección antes mencionada dentro de los 30 días de la fecha de la publicación del periódico de este aviso. Si se solicita audiencia oportuna, el Director fijará una audiencia a menos que la solicitud es claramente frívola. El Director podrá celebrar una audiencia pública en ausencia de cualquier solicitud.

Cualquier audiencia pública en conformidad con esta aplicación se llevará a cabo en un lugar en el área de Lordsburg y accesible para el público en general. Si el Director determina a cabo una audiencia pública, la fecha, hora y lugar de dicha audiencia se anunciara en el periódico Herald del Condado de Hidalgo.

Los comentarios escritos deben ser recibidos por el Director antes del cierre del registro de la audiencia después de cualquier audiencia pública que se celebre. Si no se lleva a cabo ninguna audiencia pública, los comentarios escritos serán consideradas sólo si son recibidos por el Director dentro de los 60 días siguientes a la fecha de esta publicación de periódico o dentro de los 60 días después de que la persona que presenta los comentarios que recibió la notificación de la solicitud, lo que sea posterior.

PUBLI K NOTICIA
The Lordsburg Mining Community
Application for Permit to Revisit the
Hamer Mine and Mill, Permit No. 11001RE
P.O. Box 129
Lordsburg, NM 88045

The Lordsburg Mining Community, Inc. (LMC) has submitted an application to the State of New Mexico, Energy, Minerals and Natural Resources Department, Mining and Minerals Division (MMD) for a permit to revisit the Hamer Mine and Mill I using Best Permit Form No. 11001RE. The Hamer Mine and Mill I is located in the region, is currently idle. The permit area is approximately 1.43 acres and is located at the Hamer Mine and Mill I, Section 14 and 21, T15N, R16W, N41E, New Mexico. The Hamer Mine and Mill I is a former open-pit mine and mill facility located at the Hamer Mine and Mill I. The Hamer Mine and Mill I is a former open-pit mine and mill facility located at the Hamer Mine and Mill I. The Hamer Mine and Mill I is a former open-pit mine and mill facility located at the Hamer Mine and Mill I.

Copies of LMC's application for permit revision to place the facility on standby status as well as Permit No. 11001RE are on file and available for viewing during normal business hours at:
New Mexico Energy, Minerals and Natural Resources Department
Mining and Minerals Division
1320 South St. Francis Drive
Santa Fe, New Mexico 87505

And also at the Public Library
The Hidalgo County Public Library
208 E. 3rd Street
Lordsburg, NM 88045
(575) 542-9646

These documents can also be viewed at or downloaded from www.nm.gov at <http://www.nm.gov/energy/minerals/permits/11001RE.html>

Written requests for a public hearing with respect to the application must be submitted to the Director, M. J. Lemuel, in the above address within 30 days after the newspaper publication of this notice.

Any interested person may request that the Director of the Mining and Minerals Division (Director) conduct a public hearing on the application for permit revision to place the facility on standby status as well as Permit No. 11001RE. Requests may be made of the Director at the address above within 30 days of the date of the newspaper publication of this notice. If a public hearing is requested, the Director shall set a hearing under the request is clearly in writing. The Director may hold a public hearing about any request.

Any public hearing pursuant to this application shall be held at a venue in the Lordsburg area and accessible to the general public. If the Hidalgo County Herald Newspaper is not published on the date, time and location of such hearing shall be determined by the Director.

Written comments must be received by the Director prior to the close of the hearing (received following any public hearing) and shall be held. If any public hearing is held, written comments will be considered only if they are received by the Director within 60 days after the date of the newspaper publication or within 10 days after the person filing the comments received notice of the application, whichever is later.

Express our Sincere Appreciation to

Lordsburg City Hall

PUBLIC NOTICE

The Lordsburg Mining Company
Application for Permit Revision for Standby Status
Banner Mill and Mill Permit No. H1001RE
P.O. Box 129
Lordsburg, NM 88045

The Lordsburg Mining Company, Inc. (LMC) has submitted an application to the State of New Mexico Energy, Minerals and Natural Resources Department, Mining and Minerals Division (MMD) pursuant to New Mexico Administrative Code (NMAC) regulations (NMAC 19.10.5 and 19.10.9) requesting a revision of the Banner Mill and Mill Processing Permit No. H1001RE to place the facility on standby status. The Banner Mill commenced in 2009 to process metallic ores from the region, is currently idle. The permit area (approx. 14 acres) is located in portions of Sections 14 and 21, T23N, R10W, N.M.P.M. near Lordsburg, in Hidalgo County, New Mexico. All facilities are located at the Banner Mill site on LMC's private lands. Financial assurance has been provided to MMD by LMC to complete reclamation following cessation of operations in accordance with the Regulations.

Copies of LMC's application for permit revision to place the facility on standby status as well as Permit No. H1001RE are on file and available for viewing during normal business hours at:

New Mexico Energy, Minerals and Natural Resources Department
Mining and Minerals Division
1220 South St. Francis Drive
Santa Fe, New Mexico 87505

And also at:

NOTICIA PUBLICA

La Compañía Minera de Lordsburg
Aplicación Para Permiso de Revisión Para Status de Espera
Mina Banner y Molino Permito Num. H1001RE
P.O. Box 129
Lordsburg, NM 88045

La Compañía Minera de Lordsburg, Inc. (CMI) ha presentado una solicitud al Estado de Nuevo México de Energía, Minerales y Recursos Naturales, División de Minas y Minerales (DMM) en conformidad con el Código Administrativo (NMAC) regulaciones de Nuevo México (NMAC 19.10.5 y 19.10.9) para solicitar una revisión del permiso Num. H1001RE para colocar las instalaciones en estado de espera de la Mina Banner y Molino existentes. El Molino Banner, construido en el 2009 para procesar minerales metálicos de la región, se encuentra actualmente inactivo. La zona de permiso (aprox. 14 hectáreas) se encuentra en partes de las Secciones 14 y 21, T23N, R10W, N.M.P.M. cerca de Lordsburg, en el condado de Hidalgo, estado de Nuevo México. Todas las instalaciones del Molino se encuentran en tierras privadas de CMI. Garantía financiera se ha proporcionado a DMM por CMI para completar la recuperación tras el cese de actividades en conformidad con los Reglamentos.

Copias de la solicitud de CMI, para la revisión del permiso para colocar las instalaciones en estado de espera, así como el Permiso Num. H1001RE son archivados y disponibles para su visualización durante el horario normal en:

New Mexico Energy, Minerals and Natural Resources Department
Mining and Minerals Division
1220 South St. Francis Drive
Santa Fe, New Mexico 87505

Y también en la:
The Hidalgo County Public Library
208 E. 3rd Street
Lordsburg, NM 88045
(575) 542-9646

Estos documentos también se pueden ver en, o descargarse de la página web de DMM en <http://www.nmmd.state.nm.us/MMD/MARP/PermitH1001RE.html>

Las solicitudes por escrito para una audiencia pública en relación con la solicitud deberán presentarse al Director, Sr. Fernando Martínez, en la dirección arriba dentro de los 30 días después de la publicación de periódico de este aviso.

Cualquier persona interesada podrá solicitar que el Director de la División de Minas y Minerales (Director) lleve a cabo una audiencia pública sobre esta solicitud en conformidad con los reglamentos 19.10.9.904 NMAC. Las solicitudes se pueden hacer al Director en la dirección antes mencionada dentro de los 30 días de la fecha de la publicación del periódico de este aviso. Si se solicita audiencia oportuna, el Director fijará una audiencia a menos que la solicitud es claramente frívola. El Director podrá celebrar una audiencia pública en ausencia de cualquier solicitud.

Cualquier audiencia pública en conformidad con esta aplicación se llevará a cabo en un lugar en el área de Lordsburg y accesible para el público en general. Si el Director determina a cabo una audiencia pública, la fecha, hora y lugar de dicha audiencia se anunciará en el periódico Herald del Condado de Hidalgo.

Lordsburg Mining Company

BANNER MILL TAILINGS IMPOUNDMENT

Application for New Unit
Revision of Existing Mine Close Out Plan
Financial Assurance Proposal

Mining and Minerals Division Permit Number: H1 001 RE

Application for Revision of H1001RE Mining Act Permit to Standby Status
The Lordsburg Mining Company
PO Box 129
Lordsburg, NM 88045

- A. Due to a temporary cessation of mining operations exceeding 180 days, The Lordsburg Mining Company (LMC) is submitting this application to revise the Mining Act permit No. H1001RE to Standby status for the Banner Mill and Tailings impoundment facilities pursuant to 19.10.7.701 NMAC.
- B. Standby status is requested for both units of the Banner mill site, the milling facility and the tailings facility. The following is provided in support of this application:
 - (1) The term limit for this Standby Status is five years from 180 days following the last date of shipment of concentrate from the mill (September 2014 + 180 days = March 2015). It is the goal of LMC to resume operations before this date, but at present a resumption date is indeterminate. Prior to the end of the five year term, if operations have not resumed, or no other permit revision and revised plan of operation is in process to re-establish operations, the facilities will be evaluated whether to begin immediately to bring the property into post mine land use, or to reapply for a continuance of standby status. LMC also may also choose to begin placement of a portion or all of the facilities into post mine land use at any time within the five year period. LMC will provide notice to MMD per MMD-MARP rules prior to commencement of reclamation/post mining use activities.
 - (2) Prior characterization test work of the ores and tailings produced by the Summit Mine and Banner Mill operations show that they do not have acid formation potential. The ores contain less than one percent total sulfide while also containing several percent calcium carbonate. In addition, the ores do not contain significant content of arsenic, mercury, antimony, lead, or other common deleterious elements that might potentially leach from the ore or tailings materials in the event of acid generation. Further, only a minimal quantity of Summit ore material remains present on the site, and all drainage from the mill site is contained in an HDPE lined retention pond. The tailings impoundment is also contained by a 60 mil HDPE liner. The impoundment is designed to contain the 100 year flood when at full capacity. The impoundment is not filled to capacity, and thus has the capability to contain much more than the 100 year event.
 - (3) The mill and tailing facilities are constructed in a manner that precludes the escape of surface or ground water into the adjacent environment. Rainfall upstream from the facilities is diverted around the site, and all rainfall within the facilities is contained in the HDPE lined impoundment or retention pond. As needed, airborne dust will be contained by the application to exposed tailings surfaces of a water-polymer mixture designed for such use to form a crust on the surface to prevent airborne dust.
 - (4) The operations do not include any leach piles or pits. The mill contains three small low grade ore piles that have been stabilized and are not subject to rainfall erosion. Further, the piles all contain rock particles that are not subject to generation of wind blown dust. The tailings are all contained within an area that drains into an HDPE lined impoundment. Any loose tailings will be graded at a 3 to one or flatter slope and compacted on the surface. The surface will be treated as previously described with a stabilizing polymer. These areas will be monitored and retreated as may be necessary to ensure stability with respect to airborne dust.
 - (5) describe how the applicable requirements of the Act and 19.10 NMAC will be met during the term of the standby status for the operations proposed for standby status, and
