

## **Deadwood/Sunburst Modification 17-1, Application Addendum #1**

1. Please provide the basis that allows Micrex to enter the Deadwood and Sunburst claims. Are the Deadwood and Sunburst private, patented claims owned by Micrex?

**The Deadwood and Sunburst claims are private, patented claims owned by Micrex therefore Micrex has a right-to-enter.**

2. The Deadwood/Sunburst mine is a proposed gold and silver operation? **Yes.**
3. Will waste rock and ore come out vertically from the Deadwood shaft or horizontally from the Deadwood adit? Or both?

**Waste rock and ore would come out vertically from the Deadwood Shaft.**

4. Is there currently a mine opening at Sunburst?

**There are no mine openings at Sunburst. The first level of the Deadwood Mine goes a little into the Sunburst. Micrex would mine the Sunburst claim through the Deadwood claim and Deadwood shaft.**

If yes, is waste rock and ore proposed to come out of the Sunburst mine opening?

**Not applicable – no mine openings at Sunburst.**

If no, will you need to make a mine opening at Sunburst?

**No. As stated above, ore and development waste would come out the Deadwood shaft.**

5. The application says any buildings brought in will be removed – what buildings are proposed?

**Example buildings would include a headframe, hoist house, crew change room, shop space, and office space.**

6. The application states that the portals will be backfilled or sealed – what material is proposed for use as backfill?

**Waste rock would be used as backfill.**
