Dear Mr. Ennis,

Miocene would like to request the release of 7.15 acres of reclaimed area in the Brie I Mine, permit number MK039MN. The area has been contoured to an appropriate surface character and topsoil has been applied over the disturbance area. Surface roughening and seeding will take place in the near future and will be dictated by soil and weather conditions. Please find the attached map illustrating the area described.

Please let me know if you have any questions.

Thanks,
