Cochiti Pueblo, NM 87072

**RE: Request for Consultation, Application for Regular Exploration Permit, Tererro
Exploration Project, Permit No. SF040ER**

Dear Governor Herrera:

The New Mexico Mining and Minerals Division ("MMD") received a submittal from Comexico LLC ("Comexico") titled, "Exploration Permit Application - Tererro Project", dated June 3, 2019 ("Application") to explore for copper, gold silver, lead and zinc, in Santa Fe County, New Mexico. MMD is processing the Application under Permit No. SF040ER.

This notification of permit application is being submitted to you pursuant to 19.10.7.701.E NMAC. I have enclosed a map showing the project location, for your information.

We are offering to consult with you on the application for Permit No. SF040ER for the Tererro Exploration Project and, in particular, to identify traditional cultural or religious properties that you would like MMD to take into consideration before making a final determination on the minimal impact exploration permit.

We would like to obtain more specific information on the location or nature of these traditional properties. This information is important in order for us to evaluate potential impacts and work toward developing avoidance, or protection, options.

MMD would like to consult with you to open a dialogue on the Tererro Exploration Project and provide you an opportunity to give us any information that you feel is appropriate. You may use the enclosed map to identify areas that you would like for us to consider as culturally important.

At this time, there is no need to pinpoint specific locations. Please, just give us some indication of the location and type or nature of properties included. Any information you provide us will be kept confidential and will serve as the basis to conduct additional consultations. In the event you are not comfortable with providing us with this information by letter, please tell me how you would like to proceed with our discussions. We would appreciate your response within 20 days of receipt of this letter.

The Application can be viewed by visiting the Mining and Minerals Division website at:

**RE: Request for Consultation, Application for Regular Exploration Permit, Tererro
Exploration Project, Permit No. SF040ER**

Dear Governor Martinez:

The New Mexico Mining and Minerals Division ("MMD") received a submittal from Comexico LLC ("Comexico") titled, "Exploration Permit Application - Tererro Project", dated June 3, 2019 ("Application") to explore for copper, gold silver, lead and zinc, in Santa Fe County, New Mexico. MMD is processing the Application under Permit No. SF040ER.

This notification of permit application is being submitted to you pursuant to 19.10.7.701.E NMAC. I have enclosed a map showing the project location, for your information.

We are offering to consult with you on the application for Permit No. SF040ER for the Tererro Exploration Project and, in particular, to identify traditional cultural or religious properties that you would like MMD to take into consideration before making a final determination on the minimal impact exploration permit.

We would like to obtain more specific information on the location or nature of these traditional properties. This information is important in order for us to evaluate potential impacts and work toward developing avoidance, or protection, options.

MMD would like to consult with you to open a dialogue on the Tererro Exploration Project and provide you an opportunity to give us any information that you feel is appropriate. You may use the enclosed map to identify areas that you would like for us to consider as culturally important.

At this time, there is no need to pinpoint specific locations. Please, just give us some indication of the location and type or nature of properties included. Any information you provide us will be kept confidential and will serve as the basis to conduct additional consultations. In the event you are not comfortable with providing us with this information by letter, please tell me how you would like to proceed with our discussions. We would appreciate your response within 20 days of receipt of this letter.

The Application can be viewed by visiting the Mining and Minerals Division website at:
