**Re: Request for Comments on Minimal Impact Exploration Permit Application, BHP Oak Grove Exploration Drilling, Grant County, New Mexico, Permit No. GR084EM**

Dear Chairman Nuvangyaoma,

The Mining and Minerals Division (MMD) of the New Mexico Energy, Minerals, and Natural Resources Department has received an application from BHP Mineral Resources to conduct a minimal impact exploration project under 19.10.3 NMAC of the New Mexico Mining Act (NMSA 1978, §69-36-1 et seq.). The proposed project is located in Grant County and will involve 1 borehole with a depth of 5000 feet on Bureau of Land Management property and new road on Private Property. The applicant anticipates disturbing approximately 3.5 acres associated with the exploration activities.

Minimal Impact exploration means disturbance will not exceed a total of 5 acres and limits impact to the environment. Operations must be completed in one year and reclaimed within two years, unless the permit is renewed. A new application for renewal would be required to extend exploration or reclamation beyond one year or to initiate further mining activities. Please see the attached map of the project vicinity. The application can also be viewed in its entirety by visiting the MMD web site at <http://www.emnrd.state.nm.us/MMD/MARP/GR084EM.html>.

A cultural resources inventory is included with this letter. Please provide comments to MMD within 20 days of receiving this letter. Please contact me at (505) 476-3427, or Jenn Johnson of my staff at (505) 476-3436 or [jennifere.johnson@state.nm.us](mailto:jennifere.johnson@state.nm.us) with any questions or if you wish to meet to discuss the application.
