RE: Minimal Impact Exploration Permit Application Determined Administratively Complete
Permit Tracking No. ED010EM, Cline's Mine Exploration, in Eddy County, NM

Dear Mr. Cline,

Pursuant to §19.10.3.302 NMAC, the New Mexico Mining and Minerals Division has determined that a Minimal Impact Exploration Permit Application ("application") submitted on May 24, 2021 is administratively complete. The application was submitted by Robert Cline, for his Cline's Mine Exploration Project and proposes to disturb a total of up to 0.1 acres of United States Forest Service ("USFS") property (6 drill holes on 6 drill pads) within the boundaries of claim numbers identified in the application for exploration located approx. 7.8 miles South of Queen, NM off of Forest Rd 201 in Eddy County New Mexico. Because Mr. Cline has agreed not to exceed 5 acres of total disturbance at all times, MMD is processing this application as a minimal impact exploration permit pursuant to §19.10.3.302 (A) NMAC.

MMD is hereby notifying you that it has determined that the proposed Minimal Impact Exploration Permit Application for Cline's Mine Exploration Project, Permit Tracking No. ED010EM is Administratively Complete. MMD will now distribute the application to other reviewing state, federal and tribal agencies to begin technically reviewing the application pursuant to 19.10.3.302 (G) NMAC. A site visit for this inspection has been set for July 7, 2021. If you have any questions, please contact me at 505-467-9589 or via e-mail at: clinton.chisler@state.nm.us.

Sincerely,

A handwritten signature in blue ink, appearing to read "Clint Chisler".
