Re: New Mine Permit Application Determined Administratively Complete; Laramide Resources Inc., Permit No. CI008RN, La Jara Mesa Mine, Cibola County, New Mexico

Dear Mr. Henderson,

Pursuant to Part 19.10.6.605.A of the New Mexico Mining Act Rules the New Mexico Mining and Minerals Division (MMD) has determined that the recently re-submitted Application to MMD on July 15, 2024 for a New Mine Permit, by Laramide Resources is administratively complete. The New Mine Permit Application proposes to disturb up to 16 acres within a Permit Area of 107 acres of federal surface lands within the permit boundaries proposed for development of an underground Uranium mine located approximately 10 miles north of the town of Grants, in Cibola County New Mexico.

Pursuant to Part 19.10.6.605.B of the New Mexico Mining Act Rules NMAC shall, within 30 days receipt of this letter, in a form approved by the Director of MMD, give public notice the application has been deemed administratively complete pursuant to 19.10.9 of the New Mexico Mining Act Rules. Therefore, and pursuant to 10.10.9.903.I of the New Mexico Mining Act Rules, Laramide Resources shall provide to the Director of MMD timely proof that the notice of this determination has been provided to everyone who has indicated to the applicant in writing that they desire information regarding the application, and to a list maintained by the Director of individuals and organizations who have requested notice of applications.

MMD will now distribute the application to other reviewing agencies and begin technically reviewing the application. If you have any questions, please contact me at 505-216-8945 or by email Samantha.rynas@EMNRD.nm.gov.

Sincerely,

Samantha Rynas, Permit Lead
Mining Act Reclamation Program (MARF)
Mining and Minerals Division
