Re: REQUEST FOR PERMIT EXTENSION FOR MINIMAL IMPACT EXPLORATION OPERATIONS – MOGOLLON PROJECT - CATRON COUNTY, NEW MEXICO PERMIT CA027EM-R4

Dear Mr. Barnes:

Summa Silver Corp. (Summa) is sending this letter to request an extension of the minimal impact drilling permit number CA027EM, as amended by Modification 23-2 (Permit) for our exploration drilling project near Mogollon in Catron County, New Mexico. The current permit term expires on November 13, 2026. For clarity, the purpose of this letter is to request an extension for the Permit under the current approved scope of operations, authorizing a maximum disturbance of 2.96 total acres within the permit area. The extension will allow Summa to complete additional exploration work in compliance with our current Permit while proceeding with permitting Modification 26-1 in parallel. All work will remain in compliance with the directives described in our currently approved scope of operations.

We look forward to your response. If you have any questions or require additional information, please contact me at (618) 263-8664 or email at cyork@silver-47.com.

Sincerely,

Chris York
VP Exploration
