PUBLIC NOTICE
Tererro Exploration Project

Comexico LLC (a wholly owned subsidiary of New World Cobalt Ltd) of 242 Linden St., Fort Collins, CO 80524, hereby provides public notice pursuant to New Mexico Administrative Code (Title 19 Chapter 10 Part 4 – 19.10.4 NMAC) to drill up to 30 exploration holes on Comexico LLC controlled unpatented mining claims located on public lands in Township 17 North; Range 11 East, Section 1 in Santa Fe County. Mining claims encompassing the Jones Hill base metal deposit, discovered in the early 1900's and explored upon through the mid 1990's, have been maintained by their owners since the 1970's. Information from the drill program will be used to help determine the amount and tenor of copper/gold/zinc/lead/silver mineralization present, which will help determine whether further exploration and evaluation is warranted.

Access to the site is provided by New Mexico State Highway 63, travelling northward from the Village of Pecos for 10 miles; then via private property, travelling north-westward for 0.68 mi from the junction of Indian Creek and Hwy 63; and then via US Forest Service Roads 192 and 120, travelling north-westward from the highway for approximately 3 miles. In the project area, access would be via existing United States Forest Service roads or minimal overlanding across existing historic tracks and would not require construction of any new access routes nor major drill pad grading or construction. Proposed surface disturbance includes drill pads and overland access and totals a maximum of approximately 2.1 acres. The drilling program proposed will use conventional truck and/or track mounted rigs and support equipment and is scheduled to begin in the third or fourth quarter of 2019, lasting up to 5 months; ending prior to February 29, 2020. Reclamation activities will conclude prior to 12 months from project implementation.

A qualified independent consulting firm will conduct cultural resource, biological, hydrogeologic, and sensitive species surveys over the entire area. Comexico LLC will use the results of these surveys and Best Management Practices to avoid impacting any sensitive resources.

Copies of the application will be on file and available for viewing during normal business hours at:

New Mexico Energy, Mineral and Natural Resources Department
Mining and Minerals Division
1220 St. Francis Drive
Santa Fe NM 87505

Or on-line at: <http://www.emnrd.state.nm.us/MMD/MARP/PermitPendingExReg.html>

Written comments or requests regarding this notice are to be submitted to Mr. Fernando Martinez, Mining and Minerals Division Director (the "Director") at the above address.

Opportunity for Public Hearing – 19.10.9.904 NMAC:

A. Any interested person may request that the Director conduct a public hearing on the application. Such request must be made within 30 days of the date of the newspaper publication of the notice of application unless the Director determines a longer period in which to make the request is appropriate and such period is specified in the published notice. If a hearing is timely requested, the Director shall set a hearing unless the request is clearly frivolous. The Director may hold a public hearing absent any request.

B. The date, time and location of the public hearing shall be advertised by the Director in a newspaper of general circulation in the locality of the operation. The advertisement shall also identify the applicant, the operation, the purpose of the hearing, and how to contact the Division for additional information. All persons who have submitted written requests in advance to receive notices of hearing to the Director or who have provided comments on the application to the Director shall be mailed notice at least 30 days prior to the hearing.

C. The nearest community to the mining or exploration operation with adequate and accessible public facilities will be the site for any public hearing.

D. All interested persons may submit written comments regarding the application to the Director. Written comments must be received by the Director prior to the close of the hearing record following any public hearing that is held. If no public hearing is held, written comments will be considered only if they are received by the Director within 60 days after the newspaper publication of the notice of the application or within 60 days after the person filing the comment received notice of the application, whichever is later.

E. An additional opportunity for a public hearing may be provided if the applicant makes substantial changes in the proposed action, if there are significant new circumstances or information bearing on the proposed action or if the applicant proposes to substantially increase the scale or substantially change the nature of the proposed action and there is public interest and a request for a public hearing.

AVISO PÚBLICO
Proyecto de exploración Tererro

Comexico LLC (una subsidiaria de propiedad absoluta de New World Cobalt Ltd.) con sede en 242 Linden St., Fort Collins, CO 80524, por la presente proporciona aviso público de conformidad con el Código Administrativo de Nuevo México (Título 19, Capítulo 10, Parte 4: 19.10.4 NMAC) para perforar hasta 30 pozos de exploración en minas reclamadas, controladas y no patentadas de Comexico LLC localizadas en terrenos públicos en el municipio 17 norte; rango 11 este, sección 1 en el condado de Santa Fe. Las minas reclamadas que abarcan el depósito de metal base Jones Hill, descubiertas a principios de 1900 y exploradas hasta mediados de los años 90, han sido mantenidas por sus propietarios desde los años 70. La información del programa de perforación se utilizará para ayudar a determinar la cantidad y el tenor de mineralización de cobre/oro/zinc/plomo/plata presente, y a su vez, determinar si se justifica una exploración y evaluación adicionales.

El acceso al sitio se logra desde la autopista estatal 63 de Nuevo México, en dirección norte desde Village of Pecos durante 10 millas; luego a través de una propiedad privada, en dirección noroeste durante 0.68 millas desde la intersección de Indian Creek y la autopista 63; y luego a través de las autopistas 192 y 120 del Servicio Forestal de EE. UU., en dirección noroeste desde la autopista durante aproximadamente 3 millas. En el área del proyecto, el acceso se logra a través de carreteras existentes del Servicio Forestal de Estados Unidos o un mínimo desplazamiento por ferrovías históricas y no requeriría la construcción de ninguna nueva ruta de acceso ni nivelación o construcción significativas de plataformas de perforación. La perturbación de superficie propuesta incluye plataformas de perforación y acceso por carretera en un terreno total de aproximadamente 2.1 acres. El programa de perforación propuesto utilizará equipos de soporte y torres de perforación instaladas en camiones convencionales y/u orugas, y está programado para iniciar en el tercer o cuarto trimestre de 2019 (con una duración de hasta 5 meses) y finalizar antes del 29 de febrero de 2020. Las actividades de reclamación concluirán antes de los 12 meses posteriores a la implementación del proyecto.

Una firma consultora independiente calificada llevará a cabo estudios de recursos culturales, biológicos, hidrogeológicos y de especies sensibles en toda el área. Comexico LLC utilizará los resultados de estos estudios y las mejores prácticas de gestión para evitar impactar los recursos sensibles.

Las copias de la solicitud se conservarán en el expediente y estarán disponibles para consulta durante el horario habitual de oficina en:

New Mexico Energy, Mineral and Natural Resources Department (Departamento de Recursos Naturales, Minerales y de Energía de Nuevo México)
Mining and Minerals Division (División de Minería y Minerales)
1220 St. Francis Drive
Santa Fe NM 87505

O en línea en: <http://www.emnrd.state.nm.us/MMD/MARP/PermitPendingExReg.html>

Los comentarios por escrito o las peticiones relacionadas con este aviso deben enviarse al Sr. Fernando Martínez, director de la División de Minería y Minerales (el "director") a la dirección que figura arriba.

Oportunidad para audiencia pública, 19.10.9.904 NMAC:

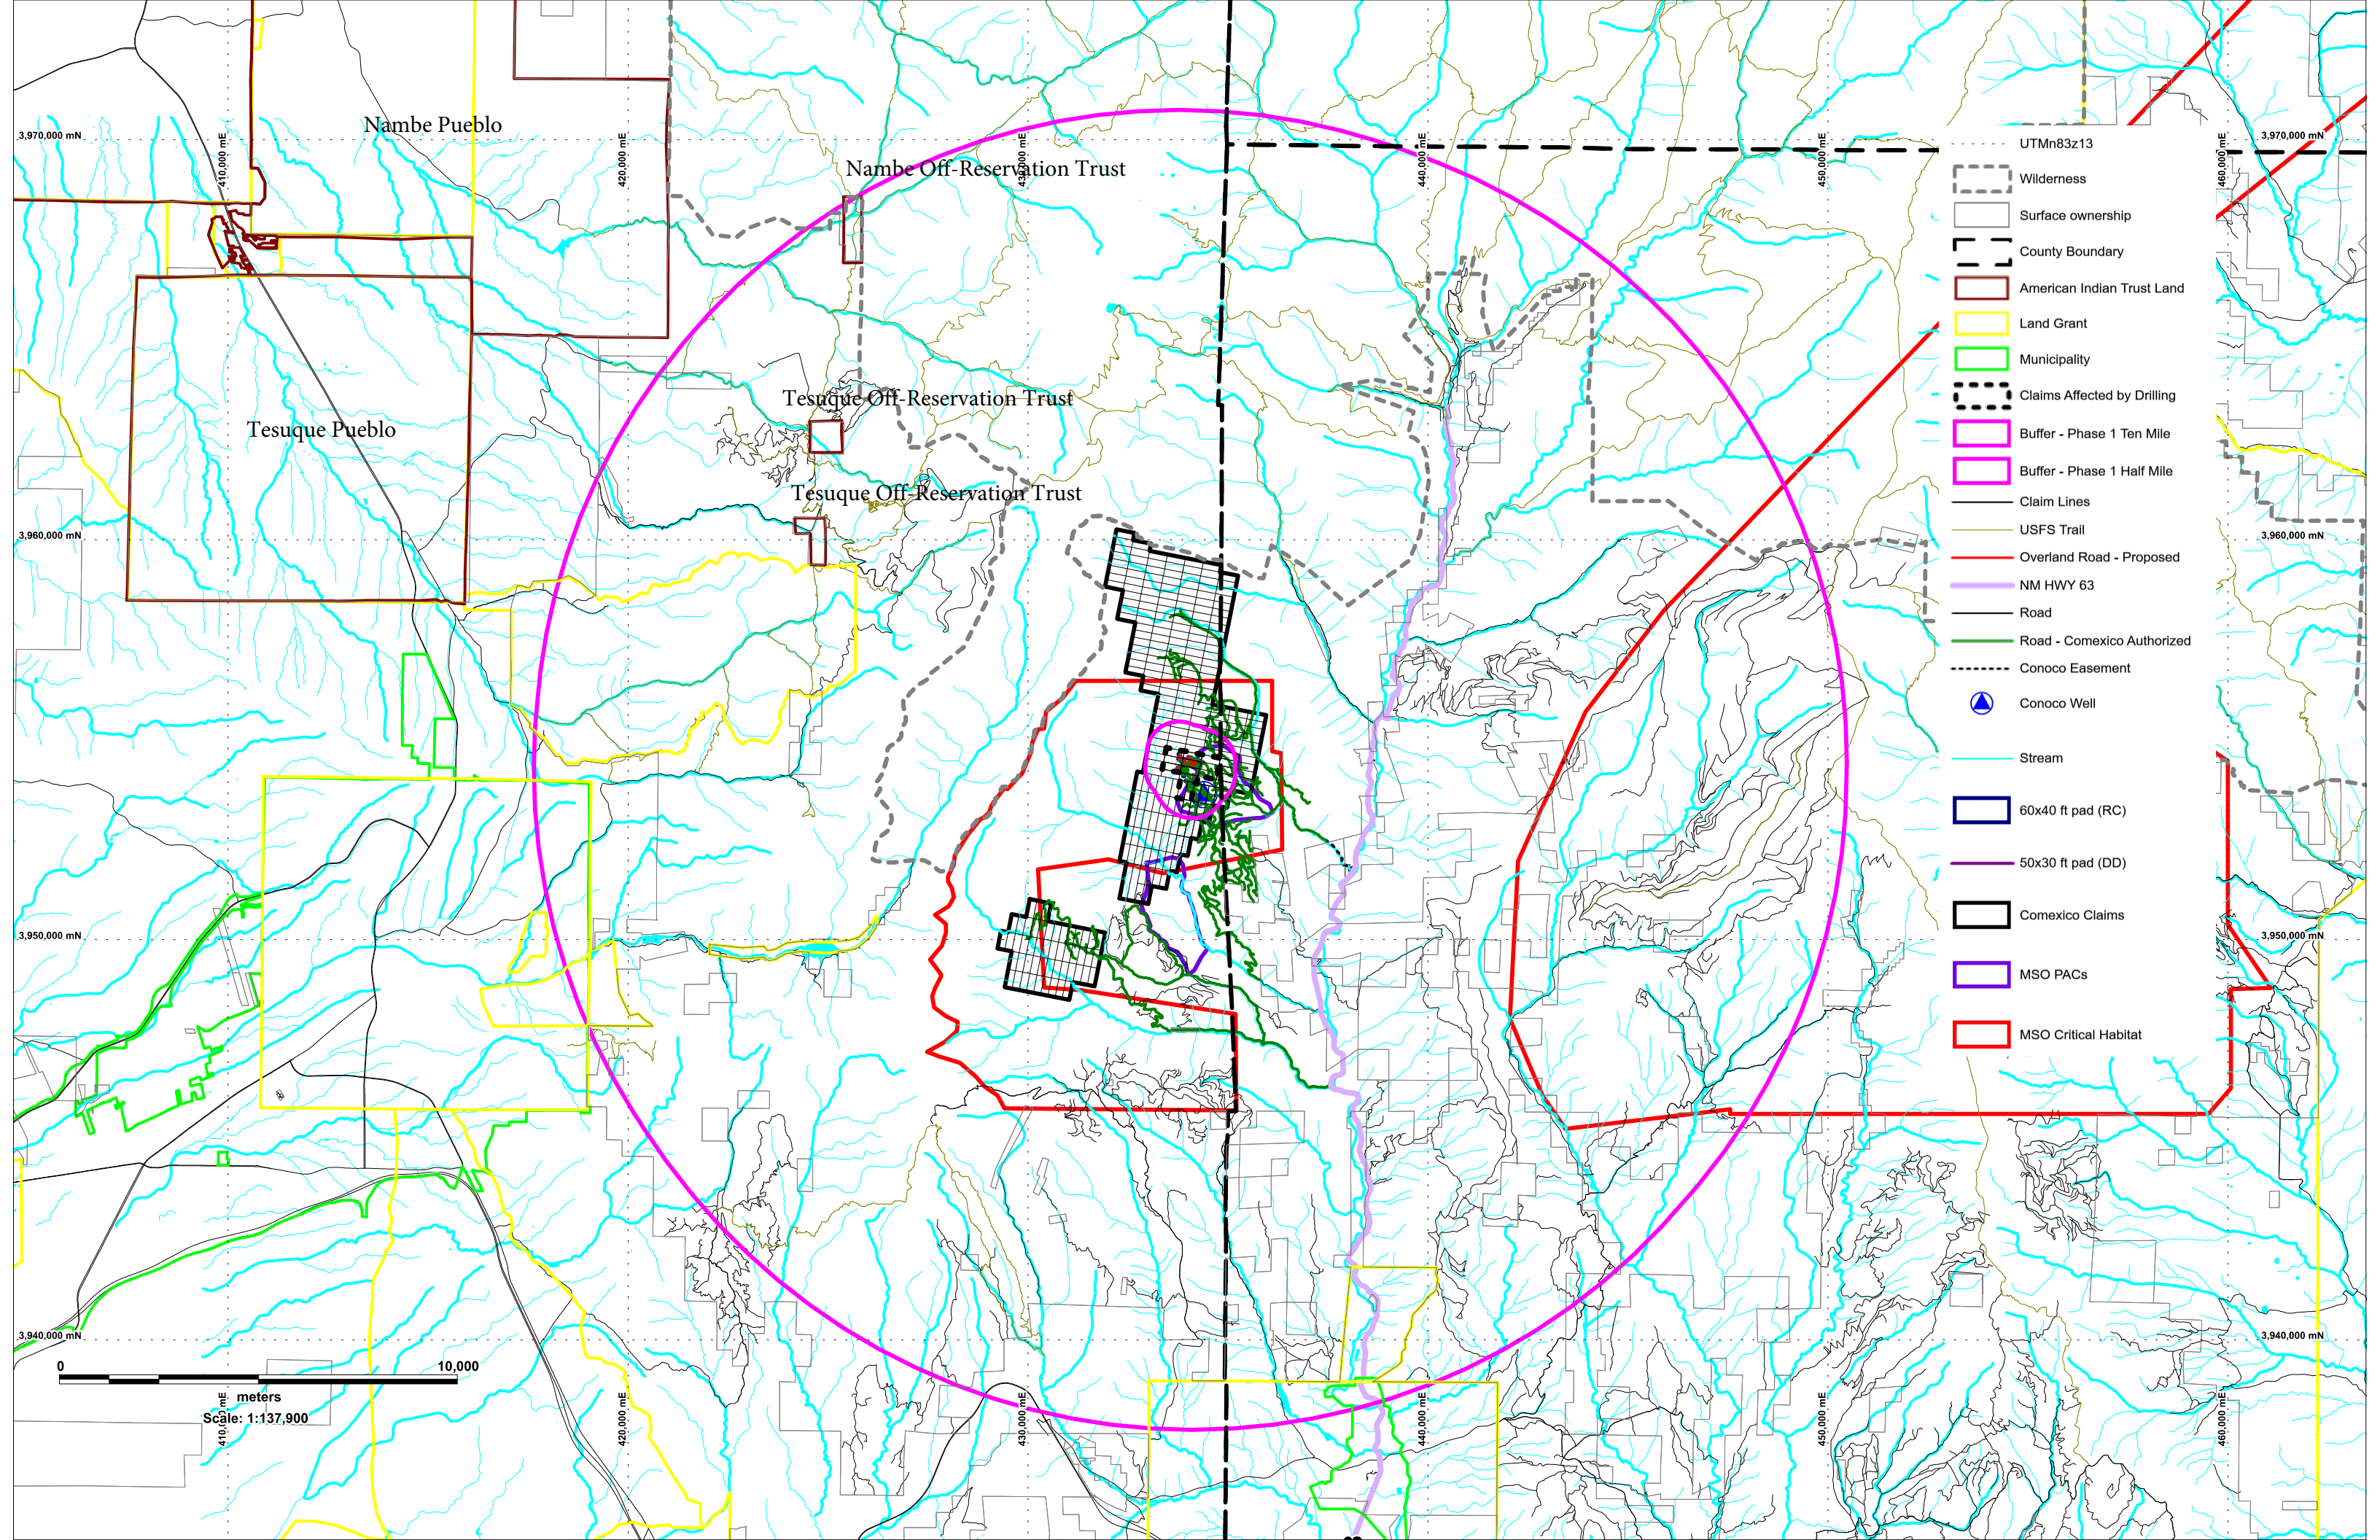

A. Cualquier persona interesada puede presentar una petición al director para que lleve a cabo una audiencia pública sobre la solicitud. Dicha petición debe presentarse dentro de los 30 días siguientes a la fecha de publicación en el periódico del aviso de la solicitud, a menos que el director determine un período mayor para presentar la petición y que dicho período se especifique en el aviso publicado. Si se solicita una audiencia a tiempo, el director coordinará una audiencia a menos que la petición sea claramente frívola. El director podrá llevar a cabo una audiencia pública en ausencia de cualquier petición.

B. La fecha, hora y lugar de la audiencia pública serán anunciados por el director en un periódico de circulación general en la localidad de la operación. El anuncio también identificará al solicitante, la operación, el propósito de la audiencia y cómo comunicarse con la División para obtener información adicional. Todas las personas que hayan presentado solicitudes por escrito con anticipación para recibir avisos de audiencia al director o que hayan enviado comentarios sobre la solicitud al director recibirán un aviso por correo al menos 30 días antes de la audiencia.

C. La comunidad más cercana a la operación de minería o exploración con instalaciones públicas adecuadas y accesibles será el sitio para cualquier audiencia pública.

D. Todas las personas interesadas pueden presentar comentarios por escrito sobre la solicitud al director. Los comentarios escritos deben ser recibidos por el director antes del cierre del registro de la audiencia después de cualquier audiencia pública que se lleve a cabo. Si no se lleva a cabo una audiencia pública, los comentarios escritos solo se considerarán si son recibidos por el director dentro de los 60 días posteriores a la publicación en el periódico del aviso de la solicitud o dentro de los 60 días posteriores a que la persona que presentó el comentario recibió el aviso de la solicitud, lo que ocurra más tarde.

E. Se puede proporcionar una oportunidad adicional para una audiencia pública si el solicitante realiza cambios sustanciales a la acción propuesta, si existen circunstancias o información nuevas y significativas que afecten la acción propuesta o si el solicitante propone aumentar sustancialmente la escala o cambiar sustancialmente la naturaleza de la acción propuesta y hay interés público y una solicitud de audiencia pública.

PUBLIC NOTICE
Tererro Exploration Project

Comexico LLC (a wholly owned subsidiary of New World Cobalt Ltd) of 242 Linden St., Fort Collins, CO 80524, hereby provides public notice pursuant to New Mexico Administrative Code (Title 19 Chapter 10 Part 4 – 19.10.4 NMAC) to drill up to 30 exploration holes on Comexico LLC controlled unpatented mining claims located on public lands in Township 17 North; Range 11 East, Section 1 in Santa Fe County. Mining claims encompassing the Jones Hill base metal deposit, discovered in the early 1900's and explored upon through the mid 1990's, have been maintained by their owners since the 1970's. Information from the drill program will be used to help determine the amount and tenor of copper/gold/zinc/lead/silver mineralization present, which will help determine whether further exploration and evaluation is warranted.

Access to the site is provided by New Mexico State Highway 63, travelling northward from the Village of Pecos for 10 miles; then via private property, travelling north-westward for 0.68 mi from the junction of Indian Creek and Hwy 63; and then via US Forest Service Roads 192 and 120, travelling north-westward from the highway for approximately 3 miles. In the project area, access would be via existing United States Forest Service roads or minimal overlanding across existing historic tracks and would not require construction of any new access routes nor major drill pad grading or construction. Proposed surface disturbance includes drill pads and overland access and totals a maximum of approximately 2.1 acres. The drilling program proposed will use conventional truck and/or track mounted rigs and support equipment and is scheduled to begin in the third or fourth quarter of 2019, lasting up to 5 months; ending prior to February 29, 2020. Reclamation activities will conclude prior to 12 months from project implementation.

A qualified independent consulting firm will conduct cultural resource, biological, hydrogeologic, and sensitive species surveys over the entire area. Comexico LLC will use the results of these surveys and Best Management Practices to avoid impacting any sensitive resources.

Copies of the application will be on file and available for viewing during normal business hours at:

New Mexico Energy, Mineral and Natural Resources Department
Mining and Minerals Division
1220 St. Francis Drive
Santa Fe NM 87505

Or on-line at: <http://www.emnrd.state.nm.us/MMD/MARP/PermitPendingExReg.html>

Written comments or requests regarding this notice are to be submitted to Mr. Fernando Martinez, Mining and Minerals Division Director (the "Director") at the above address.

Opportunity for Public Hearing – 19.10.9.904 NMAC:

A. Any interested person may request that the Director conduct a public hearing on the application. Such request must be made within 30 days of the date of the newspaper publication of the notice of application unless the Director determines a longer period in which to make the request is appropriate and such period is specified in the published notice. If a hearing is timely requested, the Director shall set a hearing unless the request is clearly frivolous. The Director may hold a public hearing absent any request.

B. The date, time and location of the public hearing shall be advertised by the Director in a newspaper of general circulation in the locality of the operation. The advertisement shall also identify the applicant, the operation, the purpose of the hearing, and how to contact the Division for additional information. All persons who have submitted written requests in advance to receive notices of hearing to the Director or who have provided comments on the application to the Director shall be mailed notice at least 30 days prior to the hearing.

C. The nearest community to the mining or exploration operation with adequate and accessible public facilities will be the site for any public hearing.

D. All interested persons may submit written comments regarding the application to the Director. Written comments must be received by the Director prior to the close of the hearing record following any public hearing that is held. If no public hearing is held, written comments will be considered only if they are received by the Director within 60 days after the newspaper publication of the notice of the application or within 60 days after the person filling the comment received notice of the application, whichever is later.

E. An additional opportunity for a public hearing may be provided if the applicant makes substantial changes in the proposed action, if there are significant new circumstances or information bearing on the proposed action or if the applicant proposes to substantially increase the scale or substantially change the nature of the proposed action and there is public interest and a request for a public hearing.

PUBLIC NOTICE
Tererro Exploration Project

Comexico LLC (a wholly owned subsidiary of New World Cobalt Ltd) of 242 Linden St., Fort Collins, CO 80524, hereby provides public notice pursuant to New Mexico Administrative Code (Title 19 Chapter 10 Part 4 – 19.10.4 NMAC) to drill up to 30 public lands in Township 17 North, Range 11 East, Section 1 in Santa Fe County. Mining claims encompassing the Jones Hill base metal deposit, discovered in the early 1900's and explored upon through the mid 1990's, have been maintained by their owners since the 1970's. Information from the drill program will be used to help determine the amount and tenor of copper/gold/zinc/lead/silver mineralization present, which will help determine whether further exploration and evaluation is warranted.

Access to the site is provided by New Mexico State Highway 63, travelling northward from the Village of Peeco for 10 miles; then via private property, travelling north-westward for 0.68 mi from the junction of Indian Creek and Hwy 63; and then via US Forest Service Roads 192 and 120, travelling north-westward from the highway for approximately 3 miles. In the project area, access would be via existing United States Forest Service roads or minimal overland access existing historic tracks and would not require construction of any new access routes nor major drill pad grading or construction. Proposed surface disturbance includes drill pads and overland access and totals a maximum of approximately 2.1 acres. The drilling program proposed will use conventional truck and/or track mounted rigs and support equipment and is scheduled to begin in the third or fourth quarter of 2019, lasting up to 5 months; ending prior to February 29, 2020. Reclamation activities will conclude prior to 12 months from project implementation.

A qualified independent consulting firm will conduct cultural resource, biological, hydrogeologic, and sensitive species surveys over the entire area. Comexico LLC will use the results of these surveys and Best Management Practices to avoid impacting any sensitive resources.

Copies of the application will be on file and available for viewing during normal business hours at:

New Mexico Energy, Mineral and Natural Resources Department
Mining and Minerals Division
1220 St. Francis Drive
Santa Fe NM 87505

Or on-line at: <http://www.emnrl.state.nm.us/MMD/MARP/Permit/Pending/ExReg.html>

Written comments or requests regarding this notice are to be submitted to Mr. Fernando Martinez, Mining and Minerals Division Director (the "Director") at the above address.

Opportunity for Public Hearing – 19.10.9.904 NMAC:

A. Any interested person may request that the Director conduct a public hearing on the application. Such request must be made within 30 days of the date of the newspaper publication of the notice of application unless the Director determines a longer period in which to make the request is appropriate and such period is specified in the published notice. If a hearing is timely requested, the Director shall set a hearing unless the request is clearly frivolous. The Director may hold a public hearing absent any request.

B. The date, time and location of the public hearing shall be advertised by the Director in a newspaper of general circulation in the locality of the operation. The advertisement shall also identify the applicant, the operation, the purpose of the hearing, and how to contact the Division for additional information. All persons who have submitted written requests in advance to receive notices of hearing to the Director or who have provided comments on the application to the Director shall be mailed notice at least 30 days prior to the hearing.

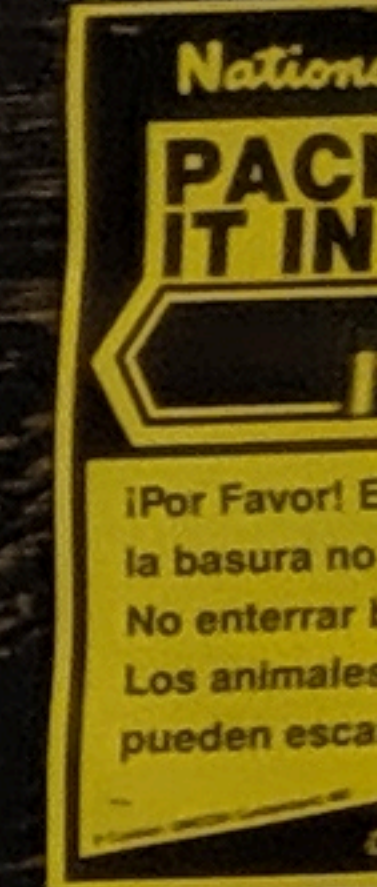

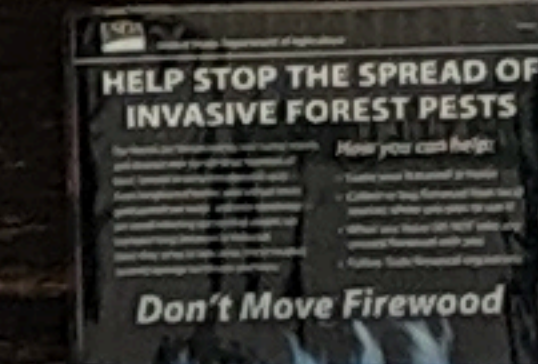

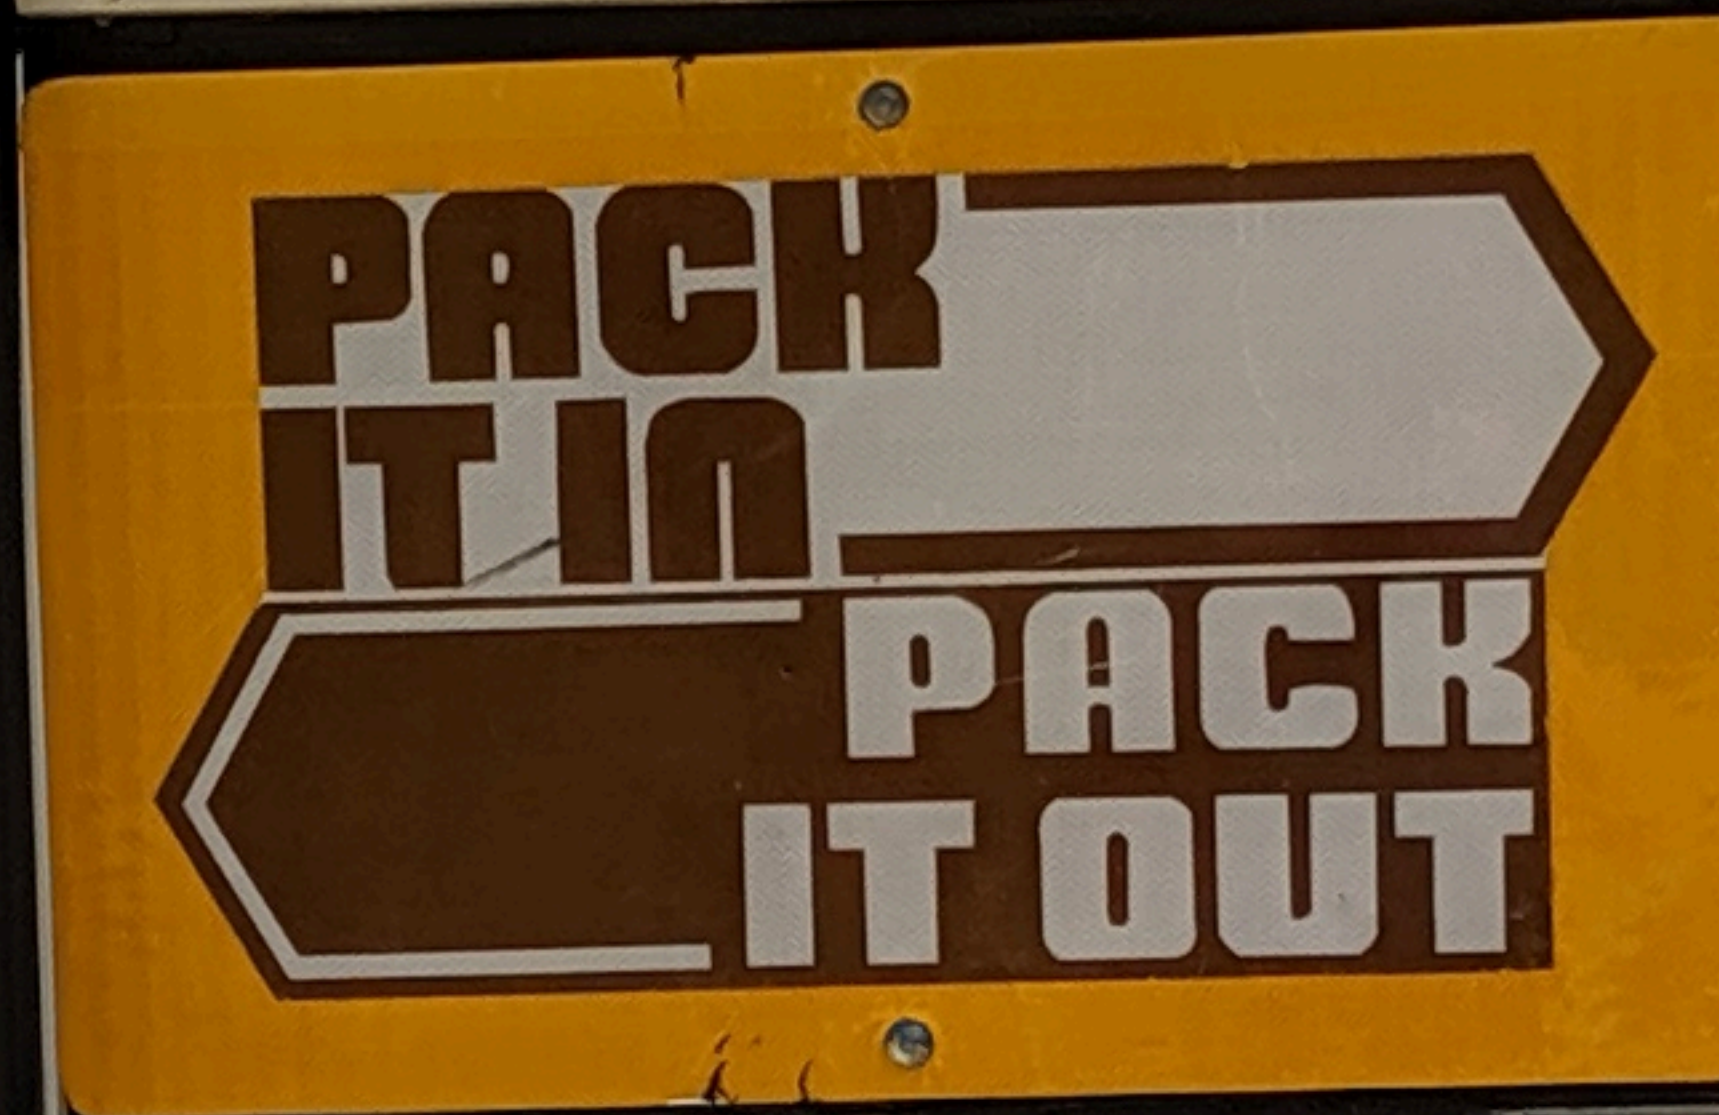

C. The nearest community to the mining or exploration operation with adequate and accessible public facilities will be the site for any public hearing.

D. All interested persons may submit written comments regarding the application to the Director. Written comments must be received by the Director prior to the close of the hearing record following any public hearing that is held. If no public hearing is held, written comments will be considered only if they are received by the Director within 60 days after the newspaper publication of the notice of the application or within 60 days after the person filing the comment received notice of the application, whichever is later.

E. An additional opportunity for a public hearing may be provided if the applicant makes substantial changes in the proposed action, if there are significant new circumstances or information bearing on the proposed action or if the applicant proposes to substantially increase the scale or substantially change the nature of the proposed action and there is public interest and a request for a public hearing.

PUBLIC NOTICE
Twyne Exploration Project

Comexco LLC (a wholly owned subsidiary of New World Cobalt Ltd) of 242 Linden St., Fort Collins, CO 80524, hereby provides public notice pursuant to New Mexico Administrative Code Title 19 Chapter 10 Part 4 - 19.10.4 NMAC to drill up to 30 exploration holes on Comexco LLC controlled unpatented mining claims located on public lands in Township 17 North, Range 11 East, Section 1 in Santa Fe County. Mining claims encompassing the Jones Hill base metal deposit, discovered in the early 1900's and explored upon through the mid 1990's, have been maintained by their owners since the 1970's. Information from the drill program will be used to help determine the amount and tenor of copper/gold/silver mineralization present, which will help determine whether further exploration and evaluation is warranted.

Access to the site is provided by New Mexico State Highway 63, travelling northward from the Village of Pecos for 10 miles, then via private property, travelling northward for 0.68 mi from the junction of Indian Creek and Hwy 63, and then via US Forest Service Roads 102 and 120, travelling northward from the highway for approximately 3 miles. In the project area, access would be via existing United States Forest Service roads or minimal overland across existing historic tracks and would not require construction of any new access routes nor major drill pad grading or construction. Proposed surface disturbance includes drill pads and overland access and totals a maximum of approximately 2.1 acres. The drilling program proposed will use conventional track and/or track mounted rigs and support equipment and is scheduled to begin in the third or fourth quarter of 2019, lasting up to 3 months, ending prior to February 28, 2020. Reclamation activities will commence prior to 12 months from project implementation.

A qualified independent consulting firm will conduct cultural resource, biological, hydrogeologic, and sensitive species surveys over the entire area. Comexco LLC will use the results of these surveys and Best Management Practices to avoid impacting any sensitive resources.
