

LEGAL NOTICE

Pursuant to the New Mexico Mining Act Rules, 19.10.5 and 19.10.9.903A. through H. NMAC, LAC Minerals (USA) LLC (LAC) is applying to the State of New Mexico Mining and Minerals Division (MMD) for a Revision to the Cunningham Hill Mine Permit SF002RE to update the Closure/Closeout Plan (CCP) and financial assurance.

Location of real property affected: The Cunningham Hill Mine Reclamation Project is located entirely on private land on the East Ortiz Mine Grant in the Ortiz Mountains, approximately 31 miles southwest of Santa Fe and approximately 46 miles northeast of Albuquerque, New Mexico. The permit area is located in an unsurveyed portion of Township 13 North, Range 8 East, and an unsurveyed portion of Township 13 North, Range 7 East. The project address is 582 County Road 55, Cerrillos, NM 87010.

Site History: Gold Fields Operating Co. Ortiz (Gold Fields) conducted mining and processing of gold at the Cunningham Hill Mine from 1979 until 1987 and ceased operations in 1987. Between 1992 and 2020, reclamation has been completed for most of the disturbed areas created by the Gold Field Operations. Reclamation of released areas has been accomplished in accordance with the New Mexico Mining Act Permit SF002RE (issued on August 31, 1995) and the Closeout Plan "Permit Revision 96-1 to Permit No. SF002RE" (Issued December 13, 2002). In a letter dated September 26, 2019 to LAC, MMD requested an update to the original CCP. This updated CCP addresses reclamation necessitated by Gold Fields' mining and processing operations under the responsibility of LAC.

Proposed changes to CCP: LAC is requesting an update to the CCP to reflect reclaimed disturbed areas that have been released from financial assurance and future reclamation activities of not yet fully reclaimed portions of the mine. These areas include the open pit, the waste rock pile, Acid Rock Drainage (ARD) treatment facilities, and reverse-osmosis ponds. Updating the CCP will describe new reclamation techniques for the open pit and how it will reach a self-sustaining ecosystem in accordance with The New Mexico Mining Act 69-36-11 NMSA. The Permit Revision will also update the financial assurance for all surface reclamation, which is jointly held by MMD for Permit No. SF002RE and the New Mexico Environment Department (NMED) for Discharge Permit DP-55.

The application can be viewed or downloaded from the New Mexico Energy, Minerals, and Natural Resources website at:

<http://www.emnrd.state.nm.us/MMD/MARP/SF002RE.html>

Name and address to submit written comments, objections or requests for public hearings: Written comments, objections or requests for a public hearing with regard to the application to update the CCP shall be submitted to: Jerry Schoeppner, Director, Mining and Minerals Division, 1220 South St. Francis Dr., Santa Fe, New Mexico 87505 and/or via email at EMNRD.MMD2@state.nm.us. Within 30 days of the date of this public notice, any interested person may file written objections to the

proposed application with the Director at the above address and may request a public hearing. If a hearing is requested in a timely manner, the Director shall set a hearing unless the request is clearly frivolous. The Director may hold a public hearing absent any request. If a public hearing is held, it will be advertised in accordance with 19.10.9.904 NMAC.

AVISO LEGAL

De conformidad con las Reglas de la Ley de Minería de Nuevo México, 19.10.5 y 19.10.9.903A. a través de H. NMAC, LAC Minerals (EE.UU.) LLC (LAC) está solicitando a la División de Minería y Minerales del Estado de Nuevo México (MMD) una revisión del permiso de minas de Cunningham Hill SF002RE para actualizar el Plan de Cierre/Cierre (CCP) y la garantía financiera.

Ubicación de la propiedad real afectada: El Proyecto de Reclamación de Minas de Cunningham Hill se encuentra completamente en terreno privado en la Beca de Mina East Ortiz en las Montañas Ortiz, aproximadamente 31 millas al suroeste de Santa Fe y aproximadamente 46 millas al noreste de Albuquerque, Nuevo México. El área de permiso se encuentra en una porción sin agrimensura del municipio 13 del norte, la cordillera 8 del este, y una porción sin agrimensura del municipio 13 del norte, la cordillera 7 del este. La dirección del proyecto es 582 County Road 55, Cerrillos, NM 87010.

Historia del sitio: Gold Fields Operating Co. Ortiz (Gold Fields) llevó a cabo la minería y el procesamiento de oro en la mina Cunningham Hill desde 1979 hasta 1987 y cesó sus operaciones en 1987. Entre 1992 y 2020, se ha completado la reclamación de la mayoría de las zonas perturbadas creadas por las Operaciones de Gold Fields. La reclamación de las áreas liberadas se ha logrado de acuerdo con el Permiso de la Ley de Minería de Nuevo México SF002RE (emitido el 31 de agosto de 1995) y el Plan de Cierre "Permiso de Revisión 96-1 para Permitir No. SF002RE" (emitido el 13 de diciembre de 2002). En una carta de fecha 26 de septiembre de 2019 a LAC, MMD solicitó una actualización al PCC original. Este CCP actualizado aborda la reclamación necesaria por las operaciones mineras y de procesamiento de Gold Fields bajo la responsabilidad de LAC.

Cambios propuestos en el PCC: LAC está solicitando una actualización al PCC para reflejar las áreas perturbadas reclamadas que han sido liberadas de las actividades de aseguramiento financiero y de reclamación futura de partes de la mina aún no reclamada. Estas áreas incluyen el tajo abierto, la escombrera de roca estéril, las instalaciones de tratamiento de Drenaje de Roca Ácida (DRA) y los estanques de ósmosis inversa. La actualización del PCC describirá nuevas técnicas de reclamación para el tajo abierto y cómo alcanzará un ecosistema autosostenible de acuerdo con la Ley de Minería de Nuevo México 69-36-11 NMSA. La revisión del permiso también actualizará la garantía financiera para toda la reclamación de superficie, que está en manos conjuntas de MMD para el permiso No. SF002RE y el Departamento de Medio Ambiente de Nuevo México (NMED) para el Permiso de Descarga DP-55.

La aplicación se puede ver o bajar desde el sitio web de Energía, Minerales y Recursos Naturales de Nuevo México en:

<http://www.emnrd.state.nm.us/MMD/MARP/SF002RE.html>

Nombre y dirección para presentar comentarios por escrito, objeciones o solicitudes de audiencias públicas: Comentarios escritos, objeciones o solicitudes de audiencia pública con respecto a la solicitud de actualización del PCC se presentarán a: Jerry Schoeppner, Director, División de Minería y Minerales, 1220 South St. Francis Dr., Santa Fe, Nuevo México 87505 y/o por correo electrónico en EMNRD.MMD2@state.nm.us. Dentro de los 30 días siguientes a la fecha de este aviso público, cualquier persona interesada puede presentar objeciones por escrito a la solicitud propuesta con el Director en la dirección anterior y puede solicitar una audiencia pública. Si se solicita una audiencia de manera oportuna, el Director fijará una audiencia a menos que la solicitud sea claramente frívola. El Director puede celebrar una audiencia pública sin ninguna solicitud. Si se celebra una audiencia pública, se anunciará de acuerdo con 19.10.9.904 NMAC.

Date: Friday, October 23, 2020 1:55:36 PM

Hi, Carmen—

I got the public notice flyers posted today, photos with timestamps and GPS locations are attached. The locations that I posted the flyers are: the mine entrance, at the intersection of Gold Mine Road and NM Highway 14, the public notice board at the Cerrillos Post Office, and the public notice board at the mailboxes in Galisteo.

The notice will run in the Santa Fe New Mexican on Monday, Oct 26, at which point we will mail out all of the notices to the parties required by NMAC 19.10.9.903. Please let me know if there is anything else you need.

Thanks and have a great weekend,

Zach Weathers

I'll check when I hang the public notice at the Post Office. We're still waiting to hear from the newspaper as to when the public notice will run. As soon as I find out that date I'll let you know and we will proceed with mailing out the public notices and hanging the flyers.

Thanks again,

Hi Carmen,

I'm not sure whether or not the VFD is used for community meetings, but I will check. Is Cerrillos Hills the State Park in which you are referring?

Hi Zach,

Not a problem. Sorry I didn't respond to this on Friday – my schedule is typically Mon-Thurs 7am-5pm.

Do you know if they use the fire dept building for community meetings, etc? If so, that could work. I was thinking you could also post at the State Park or Community Church? It just needs to be somewhere that the community is able to easily access (which, during a pandemic may be a bit harder...).

Thank you,

Carmen

Hi, Carmen—

Thanks for taking my call earlier. I do have one more question in reference to posting the Public Notices. There is not a post office in Madrid or Galisteo. Would the Volunteer Fire Department in Cerrillos be alright for the forth location? We could also do the VFD in Galisteo or Madrid, as well.

Thanks!

Good afternoon Carmen,

I have attached the Certified Mail Receipts. I have reached out to the Santa Fe New Mexican newspaper and they are waiting on the affidavit to be notarized. As soon as I have the affidavit I will forward it on to you as well.

Thank you,

Kristina Goodnight | Administrative Assistant

Hi, Carmen—

I got the public notice flyers posted today, photos with timestamps and GPS locations are attached. The locations that I posted the flyers are: the mine entrance, at the intersection of Gold Mine Road and NM Highway 14, the public notice board at the Cerrillos Post Office, and the public notice board at the mailboxes in Galisteo.

The notice will run in the Santa Fe New Mexican on Monday, Oct 26, at which point we will mail out all of the notices to the parties required by NMAC 19.10.9.903. Please let me know if there is anything else you need.

Thanks and have a great weekend,

Zach Weathers

I'll check when I hang the public notice at the Post Office. We're still waiting to hear from the newspaper as to when the public notice will run. As soon as I find out that date I'll let you know and we will proceed with mailing out the public notices and hanging the flyers.

Thanks again,

Zach,

Sounds good. And yes, I was thinking Cerrillos Hills State Park. Not sure if they have a bulletin board or anything though...

Hi Carmen,

I'm not sure whether or not the VFD is used for community meetings, but I will check. Is Cerrillos Hills the State Park in which you are referring?

Hi Zach,

Not a problem. Sorry I didn't respond to this on Friday – my schedule is typically Mon-Thurs 7am-5pm.

Do you know if they use the fire dept building for community meetings, etc? If so, that could work. I was thinking you could also post at the State Park or Community Church? It just needs to be somewhere that the community is able to easily access (which, during a pandemic may be a bit harder...).

Thank you,

Carmen

Hi, Carmen—

Thanks for taking my call earlier. I do have one more question in reference to posting the Public Notices. There is not a post office in Madrid or Galisteo. Would the Volunteer Fire Department in Cerrillos be alright for the forth location? We could also do the VFD in Galisteo or Madrid, as well.

Thanks!

LEGAL NOTICE

Pursuant to the New Mexico Mining Act Rules, 19.10.5 and 19.10.9.903A, through H. NMAC, LAC Minerals (USA) LLC (LAC) is applying to the State of New Mexico Mining and Minerals Division (MMD) for a Revision to the Cunningham Hill Mine Permit SF002RE to update the Closure/Closeout Plan (CCP) and financial assurance.

Location of real property affected: The Cunningham Hill Mine Reclamation Project is located entirely on private land on the East Ortiz Mine Grant in the Ortiz Mountains, approximately 31 miles southwest of Santa Fe and approximately 46 miles northeast of Albuquerque, New Mexico. The permit area is located in an unsurveyed portion of Township 13 North, Range 8 East, and an unsurveyed portion of Township 13 North, Range 7 East. The project address is 582 County Road 55, Cerrillos, NM 87010.

Site History: Gold Fields Operating Co. Ortiz (Gold Fields) conducted mining and processing of gold at the Cunningham Hill Mine from 1979 until 1987 and ceased operations in 1987. Between 1992 and 2020, reclamation has been completed for most of the disturbed areas created by the Gold Field Operations. Reclamation of released areas has been accomplished in accordance with the New Mexico Mining Act Permit SF002RE (issued on August 31, 1995) and the Closeout Plan "Permit Revision 96-1 to Permit No. SF002RE" (Issued December 13, 2002). In a letter dated September 26, 2019 to LAC, MMD requested an update to the original CCP. This updated CCP addresses reclamation necessitated by Gold Fields' mining and processing operations under the responsibility of LAC.

Proposed changes to CCP: LAC is requesting an update to the CCP to reflect reclaimed disturbed areas that have been released from financial assurance and future reclamation activities of not yet fully reclaimed portions of the mine. These areas include the open pit, the waste rock pile, Acid Rock Drainage (ARD) treatment facilities, and reverse-osmosis ponds. Updating the CCP will describe new reclamation techniques for the open pit and how it will reach a self-sustaining ecosystem in accordance with The New Mexico Mining Act 69-36-11 NMSA. The Permit Revision will also update the financial assurance for all surface reclamation, which is jointly held by MMD for Permit No. SF002RE and the New Mexico Environment Department (NMED) for Discharge Permit DP-55.

The application can be viewed or downloaded from the New Mexico Energy, Minerals, and Natural Resources website at:

<http://www.emnr.state.nm.us/MMD/MARP/SF002RE.html>

Name and address to submit written comments, objections or requests for public hearings: Written comments, objections or requests for a public hearing with regard to the application to update the CCP shall be submitted to: Jerry Schoepner, Director, Mining and Minerals Division, 1220 South St. Francis Dr., Santa Fe, New Mexico 87505 and/or via email at EMNRD.MMD2@state.nm.us. Within 30 days of the date of this public notice, any interested person may file written objections to the proposed application with the Director at the above address and may request a public hearing. If a hearing is requested in a timely manner, the Director shall set a hearing unless the request is clearly frivolous. The Director may hold a public hearing absent any request. If a public hearing is held, it will be advertised in accordance with 19.10.9.904 NMAC.

This week ARTICO is featuring "Galisteñas" – the artwork of seven women artists in our community.

The virtual show takes place on Artico's Instagram @artico.20

<https://www.instagram.com/artico.20>

You do not need an account to view the artwork, although you may be prompted to create one. If you have Instagram, be sure to follow: @artico.20 so you don't miss the show!

Each day this week (October 19-25), a different artist and their work will be featured. You'll see the works of Peggy Diggs, Caroline Hinkley, Emily Leonard, Linda Mortensen, Jenny Stocker, Janice Wall and Geninne Zlatkis.

Artico is a New Mexico Artist Collective that formed amid the pandemic. Galisteo artist Laura Yeats is one of its nine founding members and is spearheading the Featured Artists program with this first exhibition. Their mission and backstory can be found at www.artico-20.org.

THIS WEEK! VIRTUAL

AVISO LEGAL

De conformidad con las Reglas de la Ley de Minería de Nuevo México, 19.10.5 y 19.10.9.903A, a través de H. NMAC, LAC Minerals (EE.UU.) LLC (LAC) está solicitando a la División de Minería y Minerales del Estado de Nuevo México (MMD) una revisión del permiso de minas de Cunningham Hill SF002RE para actualizar el Plan de Cierre/Cierre (CCP) y la garantía financiera.

Ubicación de la propiedad real afectada: El Proyecto de Reclamación de Minas de Cunningham Hill se encuentra completamente en terreno privado en la Boca de Mina East Ortiz en las Montañas Ortiz, aproximadamente 31 millas al suroeste de Santa Fe y aproximadamente 46 millas al noreste de Albuquerque, Nuevo México. El área de permiso se encuentra en una porción sin agrimensura del municipio 13 del norte, la cordillera 8 del este, y una porción sin agrimensura del municipio 13 del norte, la cordillera 7 del este. La dirección del proyecto es 582 County Road 55, Cerrillos, NM 87010.

Historia del sitio: Gold Fields Operating Co. Ortiz (Gold Fields) llevó a cabo la minería y el procesamiento de oro en la mina Cunningham Hill desde 1979 hasta 1987 y cesó sus operaciones en 1987. Entre 1992 y 2020, se ha completado la reclamación de la mayoría de las zonas perturbadas creadas por las Operaciones de Gold Fields. La reclamación de las áreas liberadas se ha logrado de acuerdo con el Permiso de la Ley de Minería de Nuevo México SF002RE (emitido el 31 de agosto de 1995) y el Plan de Cierre "Permiso de Revisión 96-1 para Permitir No. SF002RE" (emitido el 13 de diciembre de 2002). En una carta de fecha 26 de septiembre de 2019 a LAC, MMD solicitó una actualización al PCC original. Este CCP actualizado aborda la reclamación necesaria por las operaciones mineras y de procesamiento de Gold Fields bajo la responsabilidad de LAC.

Cambios propuestos en el PCC: LAC está solicitando una actualización al PCC para reflejar las áreas perturbadas reclamadas que han sido liberadas de las actividades de aseguramiento financiero y de reclamación futura de partes de la mina aún no reclamada. Estas áreas incluyen el tajo abierto, la escombrera de roca ácida (DRA) y los estanques de ósmosis inversa. La actualización del PCC describirá nuevas técnicas de reclamación para el tajo abierto y cómo alcanzará un ecosistema autosostenible de acuerdo con la Ley de Minería de Nuevo México 69-36-11 NMSA. La revisión del permiso también actualizará la garantía financiera para toda la reclamación de superficie, que está en manos conjuntas de MMD para el permiso No. SF002RE y el Departamento de Medio Ambiente de Nuevo México (NMED) para el Permiso de Descarga DP-55.

La aplicación se puede ver o bajar desde el sitio web de Energía, Minerales y Recursos Naturales de Nuevo México en:

<http://www.emnr.state.nm.us/MMD/MARP/SF002RE.html>

Nombre y dirección para presentar comentarios por escrito, objeciones o solicitudes de audiencias públicas: Comentarios escritos, objeciones o solicitudes de audiencia pública con respecto a la solicitud de actualización del PCC se presentarán a: Jerry Schoepner, Director, División de Minería y Minerales, 1220 South St. Francis Dr., Santa Fe, Nuevo México 87505 y/o por correo electrónico en EMNRD.MMD2@state.nm.us. Dentro de los 30 días siguientes a la fecha de este aviso público, cualquier persona interesada puede presentar objeciones por escrito a la solicitud propuesta con el Director en la dirección anterior y puede solicitar una audiencia pública. Si se solicita una audiencia de manera oportuna, el Director fijará una audiencia a menos que la solicitud sea claramente trivial. El Director puede celebrar una audiencia pública sin ninguna solicitud. Si se celebra una audiencia pública, se anunciará de acuerdo con 19.10.9.904 NMAC.

AVISO LEGAL

De conformidad con las Reglas de la Ley de Minería de Nuevo México, 19.10.5 y 19.10.9 903A, a través de H. NMAC, LAC Minerals (EE.UU.) LLC (LAC) está solicitando a la División de Minería y Metales del Estado de Nuevo México (MMD) una revisión del permiso de minas de Cunningham Hill SF002RE para actualizar el Plan de Cierre/Reclamación (CCP) y la garantía financiera.

Ubicación de la propiedad y área afectada: El Proyecto de Reclamación de Minas de Cunningham Hill se encuentra completamente en terreno privado en la Beca de Mina East Ortiz en las Montañas Ortiz, aproximadamente 31 millas al suroeste de Santa Fe y aproximadamente 46 millas al noroeste de Albuquerque, Nuevo México. El área de permiso se encuentra en una porción sin agrimenso del municipio 13 del norte, la cordillera 8 del este, y una porción sin agrimenso del municipio 13 del norte, la cordillera 7 del este. La dirección del proyecto es 582 County Road 55, Cerrillos, NM 87010.

Historia del sitio: Gold Fields Operating Co. Ortiz (Gold Fields) llevó a cabo la minería y el procesamiento de oro en la mina Cunningham Hill desde 1979 hasta 1987 y cerró sus operaciones en 1987. Entre 1992 y 2020, se ha completado la reclamación de la mayoría de las áreas perturbadas creadas por las Operaciones de Gold Fields. La reclamación de las áreas liberadas se ha logrado de acuerdo con el Permiso de la Ley de Minería de Nuevo México SF002RE (emitido el 31 de agosto de 1995) y el Plan de Cierre "Permiso de Revisión 96-1" para Permiso No. SF002RE (emitido el 13 de diciembre de 2002). En una carta de fecha 26 de septiembre de 2019 a LAC, MMD solicitó una actualización al PCC original. Este CCP actualizado aborda la reclamación necesaria por las operaciones mineras y de procesamiento de Gold Fields bajo la responsabilidad de LAC.

Cambios propuestos en el PCC: LAC está solicitando una actualización al PCC para reflejar las áreas perturbadas reclamadas que han sido liberadas de las actividades de aseguramiento financiero y de reclamación futuras de partes de la mina aún no reclamada. Estas áreas incluyen el tajo abierto, la acumulación de roca ácida, las instalaciones de tratamiento de Drenaje de Roca Ácida (DRA) y los estanques de aguas ácidas. La actualización del PCC describirá nuevas técnicas de reclamación para el tajo abierto y cómo alcanzará un ecosistema autosostenible de acuerdo con la Ley de Minería de Nuevo México 69-36-11 NMSA. La revisión del permiso también actualizará la garantía financiera para toda la reclamación de superficie, que está en manos conjuntas de MMD para el permiso No. SF002RE y el Departamento de Medio Ambiente de Nuevo México (NMED) para el Permiso de Descarga DP-55.

La aplicación se puede ver o bajar desde el sitio web de Energía, Metales y Recursos Naturales de Nuevo México en:

<http://www.enmr.state.nm.us/NMMD/MARP/SF002RE.html>

Nombre y dirección para presentar comentarios por escrito, objeciones o solicitudes de audiencia pública: Comentarios, objeciones o solicitudes de audiencia pública con respecto a la solicitud de actualización del PCC se presentarán a: Jerry Schoepner, Director, División de Minería y Metales, 1220 South St. Francis Dr., Santa Fe, Nuevo México 87505 y/o por correo electrónico a ENMR@NMED.state.nm.us. Dentro de los 30 días siguientes a la fecha de esta avisación pública, cualquier persona interesada puede presentar objeciones por escrito a la solicitud propuesta de CCP y puede solicitar una audiencia pública. Si se solicita una audiencia de manera oportuna, el Director fijará una audiencia a menos que la solicitud sea claramente frívola. El Director puede celebrar una audiencia pública sin ninguna solicitud. Si se celebra una audiencia pública, se anunciará de acuerdo con 19.10.9 904 NMAC.

LEGAL NOTICE

Pursuant to the New Mexico Mining Act Rules, 19.10.5 and 19.10.9.903A. through H. NMAC, LAC Minerals (USA) LLC (LAC) is applying to the State of New Mexico Mining and Minerals Division (MMD) for a Revision to the Cunningham Hill Mine Permit SF002RE to update the Closure/Closeout Plan (CCP) and financial assurance.

Location of real property affected: The Cunningham Hill Mine Reclamation Project is located entirely on private land on the East Ortiz Mine Grant in the Ortiz Mountains, approximately 31 miles southwest of Santa Fe and approximately 46 miles northeast of Albuquerque, New Mexico. The permit area is located in an unsurveyed portion of Township 13 North, Range 8 East, and an unsurveyed portion of Township 13 North, Range 7 East. The project address is 582 County Road 55, Cerrillos, NM 87010.

Site History: Gold Fields Operating Co. Ortiz (Gold Fields) conducted mining and processing of gold at the Cunningham Hill Mine from 1979 until 1987 and ceased operations in 1987. Between 1992 and 2020, reclamation has been completed for most of the disturbed areas created by the Gold Field Operations. Reclamation of released areas has been accomplished in accordance with the New Mexico Mining Act Permit SF002RE (issued on August 31, 1995) and the Closeout Plan "Permit Revision 96-1 to Permit No. SF002RE" (Issued December 13, 2002). In a letter dated September 26, 2019 to LAC, MMD requested an update to the original CCP. This updated CCP addresses reclamation necessitated by Gold Fields' mining and processing operations under the responsibility of LAC.

Proposed changes to CCP: LAC is requesting an update to the CCP to reflect reclaimed disturbed areas that have been released from financial assurance and future reclamation activities of not yet fully reclaimed portions of the mine. These areas include the open pit, the waste rock pile, Acid Rock Drainage (ARD) treatment facilities, and reverse-osmosis ponds. Updating the CCP will describe new reclamation techniques for the open pit and how it will reach a self-sustaining ecosystem in accordance with The New Mexico Mining Act 69-36-11 NMSA. The Permit Revision will also update the financial assurance for all surface reclamation, which is jointly held by MMD for Permit No. SF002RE and the New Mexico Environment Department (NMED) for Discharge Permit DP-55.

The application can be viewed or downloaded from the New Mexico Energy, Minerals, and Natural Resources website at:

<http://www.emnrd.state.nm.us/MMD/MARP/SF002RE.html>

Name and address to submit written comments, objections or requests for public hearings: Written comments, objections or requests for a public hearing with regard to the application to update the CCP shall be submitted to: Jerry Schoeppner, Director, Mining and Minerals Division, 1220 South St. Francis Dr., Santa Fe, New Mexico 87505 and/or via email at EMNRD.MMD2@state.nm.us. Within 30 days of the date of this public notice, any interested person may file written objections to the

proposed application with the Director at the above address and may request a public hearing. If a hearing is requested in a timely manner, the Director shall set a hearing unless the request is clearly frivolous. The Director may hold a public hearing absent any request. If a public hearing is held, it will be advertised in accordance with 19.10.9.904 NMAC.
