**Subject:** Re: Tererro (aka Jones Hill) Exploration Permit - Cultural Resources Report

Hi David,

As the project, or parts of the project, are on USFS land. They have jurisdiction over what happens. In this case they survey revealed several sites, but the only one is significant and could be affected/damaged by this project(LA 177267). The USFS has called for an archaeological monitor where ground disturbance will occur adjacent to this site. The contractor/mine must follow the USFS recommendations, in this case, to have an archaeologist monitor this area. SHPO has completed the review.

Does this help?

Sincerely

Rick Reycraft

**Subject:** FW: Tererro (aka Jones Hill) Exploration Permit - Cultural Resources Report

Hi Richard,

Thanks for putting me into contact with Andy Wakefield at SHPO and Kathryn Turner at the SFNF. I don't recall working with the federal agencies on review of the cultural resources reports/issues for a MMD mining permit. Would you help me understand how this compares with your review of the mining proposals that MMD submits to SHPO for review? Has SHPO completed their review for this project and are there recommendations to MMD for the protection of cultural resources in the proposed permit area?

Thanks for your help.

-David

Andy & Rick,  
Thank you for forwarding this email.

David,  
After receiving comment from Andy/SHPO, I forwarded that information to the contractor who conducted the survey so that they could inform the Company and also to Larry Gore the FS lead for the project. If you have further questions about the heritage portion of the project or the consultation please feel free to contact either myself or Larry Gore/Josh Szopinski who are the project leads for the Forest.

Thank you,  
Kathi Turner

Hi David,

Please see attached for the Santa Fe National Forest (SFNF) consultation record with SHPO for this project. However, because this is on the SFNF, I recommend that you coordinate with their Forest Archaeologist, Kathi Turner, on the Section 106 status and recommendations to avoid adverse effects to known historic properties within the project area of potential effect. I copied Kathi to this email so you have her contact.

Please let me know if you would like to discuss this project further.

Thanks.

Hi David,

I do not review submissions from the SF National Forest, but I'm CC'ing Andy Wakefield on this message, who does those reviews. Andy, can you let David know if you've reviewed this survey report?

Thanks

Rick Reycraft  
HPD Review

**Subject:** Tererro (aka Jones Hill) Exploration Permit - Cultural Resources Report

Hi Richard,

I am writing to inquire if the Historic Preservation Division (HPD) has received and reviewed a Cultural Properties Survey Report related to the Tererro Exploration Project. MMD originally requested the HPD's comments on the Tererro Exploration Project in July 2019 and received your response letter,

dated July 25, 2019, under HPD Log#110988. The proposed exploration project is located on lands administered by the Santa Fe National Forest near Pecos, NM. I have recently been informed by the applicant, Comexico LLC, that a Cultural Properties Survey Report, prepared by SWCA Environmental Consultants, was submitted to the HPD by the Santa Fe National Forest in May 2021. Please let me know if this is correct and kindly submit your comments on the Report, if any, so that MMD may conclude its technical review of the application.

Please let me know if you have any questions.

Thanks.

-David
