A preliminary agenda will be available to the public no later than ten days prior. A final agenda will be available no later than 72 hours preceding the meeting. Members of the public may obtain copies of the agenda by contacting Commission Clerk Sheila Apodaca or by visiting the Oil Conservation Commission website at

<http://www.emnrd.nm.gov/ocd/occ-info>

If you are an individual with a disability who is in need of a reader, amplifier, qualified sign language interpreter, or any other form of auxiliary aid or service to attend or participate in the hearing, please contact Ms. Apodaca at (505) 699-8358 or through the New Mexico Relay Network at 1-800-659-1779. Public documents can be provided in various accessible formats.

The following items are for discussion and possible action:

1. Consolidated OCD Cases 26053 and 26082

Case No. 26053: Desert Ram's request for hearing de novo on OCD Cases 25547, 25548, 25899, 25900. This appeal concerns whether a groundwater-right holder whose agricultural operations depend on the aquifer underlying the township in which high-volume produced water disposal wells are proposed may be categorically excluded from the permitting process without any opportunity to present evidence regarding its protectable groundwater interests. Desert Ram sought to intervene in proceedings involving four proposed saltwater disposal wells that will inject large volumes of produced water, collectively up to 80,000 barrels per day, into shallow formations, all in the same township where Desert Ram operates ranching and agricultural operations dependent on groundwater.

Case No. 26082: Pilot Water Solutions request for hearing de novo on OCD Cases 25547, 25548, 25899 and 25900. This appeal concerns whether an active same-formation saltwater disposal operator may be categorically excluded from participation in disposal-well proceedings without any opportunity to present evidence regarding formation-level pressure constraints, cumulative injection burden, and resulting impacts on its existing operations.

MATTER TO BE HEARD: Status Conference and review of abeyance.

- 2. Case No. 26385: Application of American Energy Resources to Reopen, for De Novo Hearing, and Stay Division Orders.** American files this request to reopen cases, for denovo hearing, and to stay division orders with regard to the following OCD Orders:
OCD Case No. 24674 and Order No. R-21104-F; Case No. 25137 and Amended Case No. 24837 and Order No. R-23748; Case No. 22536 and Order No. R-21123-C; Case No. 24963 and Amended Case No. 25233 and Order No. R-21096-F.

MATTER TO BE HEARD: Status Conference.

Given under the Seal of the New Mexico Oil Conservation Commission at Santa Fe, New Mexico.
