Hello again Ms. Davidson,

In accordance with the Notice of Errata that I forwarded to you a few minutes ago, I would be grateful if you would file this email message from Norman Gaume and the attachments as the Intervenors' Notice of Errata in Oil Conservation Commission case number 21834.

Thank you.

Doug

**Subject:** Fwd: Intervenors' Notice of Intent in Oil Conservation Commission case number 21834  
**Date:** Mon, 31 May 2021 14:54:10 -0600  
**From:** Norm Gaume <[normgaume@gmail.com](mailto:normgaume@gmail.com)>  
**To:** Douglas Meiklejohn <[dmeiklejohn@nmelc.org](mailto:dmeiklejohn@nmelc.org)>

Hi, Doug,

Would you please file an errata to replace the pdf of my testimony that you submitted as part of our Notice of Intent with a digital copy. I have attached a clean revised copy and a "track changes" copy showing each of the changes. Changes correct the NMWRRRI report statistics to correspond to the report abstract text in the footnote and delete an obsolete reference to a second Exhibit that is not included. My revised testimony corrects grammar and clarifies language. Please forward this email in order to preserve its digital information.

Digital copies of the three Exhibits to my testimony are attached to this email. The URL addresses in the original May 26 version were all correct. All of the URLs are now hyperlinks except the one referring to my download of 2020 spills data but it is reproduced as a hyperlink below. The name OCD's computer assigns to the search file has more characters than the Word hyperlink function will accept.

Exhibit 1:

IPAWM  
Ex. 1

# Oil Conservation Division Public Data for 2017 Through 2019 Demonstrate Produced Wastewater Spills Are Prevented by Some Oil and Gas Producers and Not by Others
