Mr. Chavez-

Select Agua Libre Midstream, LLC (Transferee) is the new owner of the Eunice No. 1 Brine Well from Basic Energy Services, LLC (Transferer).

The Transferer submitted an application for an OCD Discharge Permit Renewal.

The Transferee and existing permit holder or Permittee hereby requests to rescind the application and implement "Closure" under Permit Condition 2.D. In addition, the Permittee has recently received approval from the Oil Conservation Division (OCD) Permit Condition 2.E to plug and abandon the well under E-Permitting Action ID# 158179. The Permittee will be working to restore the land surface in coordination with its PA efforts.
