Position/Classification Action Request Form

Section 4: Complete for Non-Manager/Supervisor position ONLY

Organizational Structure

What has changed with this position? Why does your agency want to initiate change?

Vacant

What organizational structure changes will be affected by the request?

None

Why does this job exist? (High level description of overall purpose of position)

This is a Forester-B technical position requiring advanced knowledge, skills and abilities to provide single resource wildland fire response and suppression management to private landowners, tribes, local governments, and state and federal land management partner agencies within the District's response area and across the state as needed. The position exists to assist the District to meet their goals and objectives of wildland fire suppression; increase the capacity and capability of staff in order to effectively respond to wildland fire activity; promote prescribed fire; and build a career ladder for emergency wildland fire staff. The position provides technical assistance for climate change adaptation including adjustments for longer fire season, higher temperatures and greater variability in precipitation including prolonged drought and high-intensity storm events. This position acts as an agent to establish partner collaboration for coordination and communication of wildland fire suppression support, resources, training and education and outreach. Further, the position supervises the District's emergency wildland firefighting staff and ensures that District's wildland fire engines and associated equipment, tools and resources are in proper working order and ready for emergency response at a moments notice. The position is also responsible for assisting and coordinating with local government fire departments, volunteer fire departments and federal and statewide resources during wildland fire suppression. The position consults on fire suppression, fire prevention and prescribed burning through education and will assist to consider the effect of forest insects and diseases on fire management and the implications of climate change. Lastly the position will assist with training of District staff and partners in spatial forest and fire management planning.

What does this job do? How does the job get done?

(Key responsibilities-include percent (%) of time spent, totaling 100%)

This position is responsible for oversight of the District's emergency wildland fire fighters and ensuring wildland fire engines and associated equipment, tools, and gear in proper working condition and ready and available for emergency wildland fire response at a moment's notice. The position will also assist the District Fire Management Officer implement education and outreach programs across the District which include FireWise, Ready, Set, Go, defensible space and the Smokey Bear Wildland Prevention campaign. Further they may assist the District Forester with outreach, education and technical assistance in the Wildland Urban Interface (WUI). The duties include communicating and

Position/Classification Action Request Form

coordination with private landowners, cooperators, partner agencies, and stakeholders while maintaining a safe work environment during fire suppression activities and assist in resolving disputes between suppression resources and private forest landowners. The position is responsible for assuring that the division stays in compliance with the applicable state laws and regulations.

Through coordination with the District FMO, develop, coordinate and manage wildland fire training and education for District emergency staff and as applicable, providing technical assistance to landowners, tribes, local government and state and federal land managers with wildland fire training education, outreach and coordination of suppression resources during wildland fire response (40%)

1. Implement the FireWise program across the District and conduct FireWise community assessments to provide to District FMO for WFDSS upload.
2. Inspect District wildland engine, tools, gear and equipment to ensure they are in proper working order, in compliant with state, federal and national standards in order to function during emergency wildland suppression actions.
3. Conduct monthly readiness reviews of all District vehicles, engines, equipment, tools and gear to ensure readiness for emergency suppression and to address any needs or repair prior to response actions.
4. Establish training and development goals for emergency hire staff and coordinate with District FMO on opportunities for development.
3. Represent the District and Division during wildland fire incidents, meetings, trainings, workshops and outreach engagements with cooperators, partners, and stakeholders.
4. Provide resource protection through suppression actions and guidance in resource management through coordination of District cooperators, suppression resources, local governments, tribes, and landowners during wildland fire incidents.
5. In coordination with the District FMO, conduct wildland fire training and provide opportunities to advance wildland fire qualification and taskbook proficiencies for District staff, emergency hires, cooperators, partners, local governments, tribes and agencies.
6. In coordination with the District FMO, conduct education and outreach to communities, stakeholders, partners and local governments, homeowners and associations, regarding wildland fire prevention and defensible space methodology including the Ready, Set, Go! program for evacuation status.
7. Attend, organize and present at public workshops, educational events and trainings; as feasible, utilize division programs and social media for field days and to showcase success.

Respond and manage wildland fire suppression actions across the District and support the District's Fire Program (60%)

1. Ensure safe and efficient wildland fire response for all staff, partners, cooperators and agencies.
2. Acquire advanced level training at the 300 level (STEN, TFLD, DIV, FIRB etc) and complete taskbooks in fire and prescribed fire qualification areas that contribute to the District's and Division's capacity for fire suppression and prescribed burning
2. In coordination with District FMO work with tribes, local governments and state and federal land management agency partners to build collaborative planning in areas and landscapes that protect communities at risk (CARs) and priority areas identified in Community Wildfire Protection Plans.
3. Implement the District FMO's wildland fire program goals and objectives in a manner that promotes the advancement of training and qualifications of District emergency hire staff to increase the response capability and capacity of the District and the state.
4. Conduct daily briefing and after action reviews, document crew performance, address performance issues and build a cohesive unit that is team oriented with safety in mind for all actions.
5. Establish zero tolerance for harassment and implement the TEMPLZ concept and promote a culture that is safe and free of harassment. Conduct daily or weekly discussion regarding harassment and TEMPLZ and ensure all staff cultivate this environment and culture.
6. As required, meet with landowners for wildland fire prevention education and outreach and promote programs for hazardous fuel mitigation and management.
7. Develop and present wildland fire suppression, prevention and prescribed burning education programs including climate mitigation and climate impacts to the environment.
8. Participate in workshops and give presentations to the public to inform them about the Prescribed Burning Act and other wildland fire associated initiatives; i.e., P.O.Ds planning and concepts, pile burning, broadcast burning, fire management planning.
9. Provide technical assistance to landowners for post-fire mitigation and reforestation of burned areas and funding opportunities as able.
10. Must maintain an annual wildland fire certification (red card) as a single resource (ENGB, CRWB) at the arduous level and be willing to work up to 16 hours per day for 14 to 21 day wildland fire assignments that may occur on weekdays, weekends, and holidays, in and out of state, and in rough, rugged terrain and in varying and unfavorable weather conditions.

Classification Description

FORESTERS

Class Title	Class Code	Pay Band	Alt Pay Band*
Foresters-B	F1032B	55	
Foresters-O	F1032O	60	
Foresters-A	F1032A	65	

**In accordance with SPB Rule 1.7.4.10 NMAC, the assignment to alternative pay bands shall be reviewed annually to determine their appropriateness.*

Occupation Description

Manage forested lands for economic, recreational and conservation purposes. May inventory the type, amount and location of standing timber, appraise the timber's worth, negotiate the purchase and draw up contracts for procurement. May determine how to conserve wildlife habitats, creek beds, water quality and soil stability and how best to comply with environmental regulations. May devise plans for planting and growing new trees, monitor trees for healthy growth and determine the best time for harvesting. Develop forest management plans for public and privately owned forested lands.

Nature of Work

Foresters have a wide range of duties, depending on whom they are working for. Some primary duties of foresters include drawing up plans to regenerate forested lands, monitoring the progress of those lands, and supervising harvests. Land management foresters choose and direct the preparation of sites on which trees will be planted. They oversee controlled burning and the use of bulldozers or herbicides to clear weeds, brush, and logging debris. They advise on the type, number, and placement of trees to be planted. Foresters then monitor the seedlings to ensure healthy growth and to determine the best time for harvesting. If they detect signs of disease or harmful insects, they consult with specialists in forest pest management to decide on the best treatment. When the trees reach a certain size, foresters decide which trees should be harvested and sold to sawmills.

Distinguishing Characteristics of Levels

Note: Examples of Work are intended to be cumulative for each progressively higher level of work. The omission of specific statements does not preclude management from assigning other duties which are reasonably within the scope of the duties.

Basic

- Employees in this Role assist in advising on the type, number, and placement of trees to be planted, monitoring of the seedlings and detection of signs of disease or harmful insects.

Recommended Education and Experience for Full Performance

Associates degree in Forestry, Range Management, Forest Management, Natural Resources, Wildlife Science, Fire Science or Ecology and four (4) years of experience in Forestry, Range Management, Forest Management, Natural Resources, Wildlife Science, Fire Science or Ecology

FORESTERS

Minimum Qualifications

High school diploma or GED and two (2) years of experience in Forestry, Range Management, Forest Management, Natural Resources, Wildlife Science, Fire Science or Ecology.

Operational

- Employees in this Role are responsible for assessing timber's worth.
- Employees may subcontract with loggers or pulpwood cutters for tree removal; aid in road layout; ensure that the work meets all requirements and specifications; determine how to best conserve wildlife habitats, creek beds, water quality and soil stability and how best to comply with environmental regulations; conserve forested ecosystems; and are responsible for assessing forest pathology and entomology and interpreting aerial photos; assist in fire supervision and fire prevention.

Recommended Education and Experience for Full Performance

Bachelor's degree in Forestry, Range Management, Forest Management, Natural Resources, Wildlife Science, Fire Science and/or Ecology and two (2) years of experience in Forestry, Range Management, Forest Management, Natural Resources, Wildlife Science, Fire Science and/or Ecology.

Minimum Qualifications

Bachelor's degree in Forestry, Range Management, Forest Management, Natural Resources, Wildlife Science, Fire Science and/or Ecology and one (1) year of experience in Forestry, Range Management, Forest Management, Natural Resources, Wildlife Science, Fire Science or Ecology. Any combination of education from an accredited college or university in a related field and/or direct experience in this occupation totaling five (5) years may substitute for the required education and experience.

Advanced

- Employees in this Role act as an agent and negotiate timber sales with industrial procurement foresters.
- Employees are responsible for considering the economics of the purchase as well as the environmental impact on natural resources.
- Employees apply rules and regulations; consult on fire suppression and prevention; forest pathology and entomology; and are responsible for the training of personnel in forest management and utilization.

Recommended Education and Experience for Full Performance

Bachelor's degree in Forestry, Range Management, or Ecology and four (4) years of in Forestry, Range Management, Forest Management, Natural Resources, Wildlife Science, Fire Science or Ecology.

Minimum Qualifications

Bachelor's degree in Forestry, Range Management, or Ecology and three (3) years of experience in Forestry, Range Management, Forest Management, Natural Resources, Wildlife Science, Fire Science or Ecology. Any combination of education from an accredited college or university in a related field and/or direct experience in this occupation totaling seven (7) years may substitute for the required education and experience.
