	• Medium (8×3×0.75 ft or ~ 1.6 ton)	\$700.00
	• Large (10×4×1 ft or ~ 3.0 ton)	\$1,150.00
<i>*Rate is based on an assumed density of 200 trees per acre. Lower densities may be reimbursed at a proportionally reduced cost; higher-density plantings are not eligible for higher rates.</i>		
Compensation Payment		% of payment
	Compensation Payment- small acreage (<15 acres)	15%
	Compensation Payment- large acreage (>15 acres)	10%

**Compensation payments are capped at \$10,000 per landowner over the life of the program.*

Premiums for Challenging Conditions:

In addition to base rates, premiums may be applied to account for difficult operating conditions. Premium levels vary by practice and must be confirmed by NMFD staff.

Challenge Levels and Premiums:

Forest Treatment Challenge	Level A (Normal)	Level B (Moderately Difficult)	Level C (Very Difficult)	Practices Applied
Slope	Up to 10%	10–25%	Above 25%	All practices
Surface Rock	Up to 25% of surface area	25–50% of surface area	Above 50% of surface area	Thinning, slash management, prescribed fire
Small Acreage	>100 acres	< 100 acres, >50 acres	< 50 acres	Prescribed fire
Accessibility	Site accessible from road	Remote or difficult access	—	Post-fire practices

Premium Amounts:

Challenge Level	Premium Increase
Level A	0%
Level B	15%
Level C	30%

Multiple-Challenge Premiums:

- 30% premium may also apply when a project has two or more Level B challenges.
- 45% premium may apply when a project has two or more Level C challenges *or* three or more Level B challenges.

Disclaimer: Rates represent the maximum allowable compensation. Landowner reimbursements are capped at the lower of the established rates or the actual expenses incurred, as documented by invoices.
