Subsection C 19.1.3.11 NMAC -- Matrix of factors and relative values

Factor	Level 4	Level 3	Level 2	Level 1
Serves purposes of the Natural Heritage Conservation Act	Clearly serves all purposes	Clearly serves multiple purposes	Clearly serves one purpose and may serve others	Questionable if any purposes are adequately served
Extent of matching cash and in-kind financial support	Applicant/Partner provide more than 75% of project costs	Applicant/Partner provide 50 to 75% of project costs	Applicant/Partner provide 25 to 49% of project costs	Applicant/Partner provide less than 25% of project costs
Transaction costs are reasonable and justified	Documentation of transaction costs is complete and within the allowable amount	Partial documentation of costs is provided and the amount requested is alllowable	Partial documentation of costs is provided and the amount requested is not allowable	No documentation of costs
Qualifications and ability of applicant and partners to complete and maintain proposed project	Substantial past experience and continuing capability to do proposed work and follow-up	Demonstrated completions of similar work and is fully structured to do similar work	Demonstrates some past ability and basic documented qualifications and infrastructure	Indicates uncertain capability or has no prior experience and necessary infrastructure
Degree of fostering existing conservation plans, strategies and initiatives (PSIs) specified in the cycle announcement	Project has substantial relation to most PSIs and directly fosters several	Project clearly fosters multiple PSIs and directly relates to several	Project has clear relation to one PSI and possible service to others	Project has uncertain relation to any PSIs or no clear degree of fostering
Potential for benefits at landscape or ecosystem scale	Substantial landscape and ecological scale benefits are evident in completed work	Substantial landscape or ecological scale benefits are evident in completed work	Desired scale benefits are evident, but are judged minimal	No clear benefits are evident at desired scale
Potential for improved public access to outdoor recreation opportunities on or off project site	Multiple enhanced recreation opportunities are evident, including hunting and fishing	Some enhanced outdoor recreation opportunities are evident and have prospect for growth	Some enhanced outdoor recreation opportunities are evident but are limited	Proposal has no discernible outdoor recreation elements
Potential economic benefits of completed project	Project has multiple economic benefits at multiple scales	Project has some economic benefits locally and broader	Project shows economic benefits, at least locally	Project has no discernible economic benefits
Complementary or strategic values through proximity to other ongoing or completed conservation actions, including any priority areas formally identified by the committee	Project is within a priority area or directly links to nearby completed or ongoing conservation actions and provides added heritage values	Project is within a priority area but has limited relationship to other conservation actions that will provide synergistic heritage values	Project is not within a priority area but has proximity to other actions that may provide synergy or economy of scale or cost effectiveness	Project has no proximity to other conservation endeavors and is not otherwise distinctive as a starting point

Factor	Level 4	Level 3	Level 2	Level 1
Degree of readiness to start and complete project on timely schedule	Readiness and time schedule are clear and background work is complete; timely execution is essentially assured	Readiness and time schedule are clear and reasonable to the project, but could experience some delay	Readiness and time schedule are clear, but have acknowledged or likely delays inconsistent with the nature of the project	Readiness and completion scheduling is unspecified, unclear or uncertain
Degree and extent of partner involvement	Multiple entity project where reasonable partnering is included with clear and substantive involvement and contribution	Multiple entity project where reasonable partnering is included beyond minimal but is not extensive	Single or multiple entity project where partnering is included, but is minimal	Single entity project with no partner involvement when such partnership is possible and advised
Likely long-term success and sustainability	Project is well-described and accomplishable with substantive provisions for sustained maintenance and routine outcome assurance	Project is well-described and accomplishable with basic provisions for sustained maintenance and periodic outcome assessment	Project is inherently achievable but contains limited provisions for maintenance over the long-term	Project appears basically achievable, but long-term outcome is questionable or uncertain
Degree of water quality and quantity benefit	Project is well-described with substantive provisions to protect, restore, and manage watershed to maintain healthy waterflows, including the protection of transferable water rights	Project is well-described with basic provisions to protect, restore, and manage watershed to maintain healthy waterflows	Project identifies some provisions, but insufficient	Does not address
