Subject: [EXTERNAL] Saving NM Endangered Plant Species
Date: Wednesday, October 27, 2021 3:49:26 PM

CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments.

I am in favor of the proposed rule change that acknowledges that stronger efforts are needed to protect and conserve New Mexico's endangered plant species. This will strengthen the language in the law to better protect our state-listed plants from severe impacts caused by energy development, road building, etc. I ask that you consider being in favor of this rule change as well. Saving plants is detrimental to the survival of our planet and of our future generations. I want my son to be an adult in a world that still has beauty and plentiful oxygen to breath and for his children to have the same. This is a change that can only bring positivity and we are all counting on you to be an ally to the Earth.

With Gratitude,

Megan Ashford
