Fee increases may be necessary to improve our parks or to maintain them. Just because other states have higher fees does not mean our state should try to 'keep up'. If fees are needed to maintain or improve our state parks that's okay. Annual passes for residents are important to me. If you need to raise the annual pass by 10.00 then do that but do not eliminate them. Having an annual pass allows me to visit anytime during the year and not having to worry about how long I will stay or if my visit can be a short visit when I have just a little time. I also give an annual pass to another family in hopes it encourages them to get out without worry of money.
