I don't understand the reasoning for charging a \$10 fee for water, electric, and sewer camp sites since the majority of campsites in NM do not include sewers at individual W/E sites. And strongly disagree with a \$10 fee for dumping when already paying for campsite without sewer connection.

You are driving me to spend more time and money in AZ, TX, and CO. By the way, I spend approximately 100 nights a year RV camping. Do the math.
