The economy of Eagle Nest and Angel Fire are dependent upon visitors from other states. These visitors travel and camp in RV's. They come to spend the entire summer as a general rule. Our RV parks are full to capacity all season long from 1 May- 30 August. A large number bring boats which they launch onto Eagle Nest Lake on a daily basis for the entire season. Just assuming they only do this from 1 Jun-30 August which is 90 days at \$10.00 per day would cost \$900.00. This cost is going to run out of state RV folk to other states and severely impact the overall economy. I am sure areas with lakes across our state would see the same impact. I have only addressed boaters. We have at least 100 fishermen per day fishing from the bank. At \$10.00 per day these folk are mostly RV folk and would move their visiting to other states and further impact our economy. Please reconsider the removal of annual passes for resident and non-residents.

Thank you for your consideration. Daryl R. Cagle
