I am a former full-time vandweller and presently a part-time vandweller. I am a disabled retired lone female of 68yo. Increasing the NM Parks fees or making them \$20/ day for use would elevate potential use for far too many. Something like Arizonas LTVA's with reasonable cost is better for the economic capabilities of a large majority of people. It includes necessary garbage disposal at the least in most areas an close proximity to necessities such as water, food, etc. Please don't do away or outprice those of us with presently limited income so that we are unable to access and utilize our lands. So many of us have worked very hard for years even as professionals to be forced into very limited lifestyles do to varying circumstances. Please don't force more and more people to be on the street's treated as inhumane or lesser than. Alot of us still provide alot of positives and are community minded. If anything we need more freedom to access more lands that are presently inaccessible. Love and care for humanity is a priority along with our lands that should be freely accessible to all.

Thank you
Deborah Tucker 68yo white female, disabled, retired Registered nurse.
