State parks. I know I am a little late to submit my commits. First I would say that traveling to Navajo dam was a no go for us. To travel at night is a no go on the roads to and from the lake. And your commits should have been some kind of for a form that would have a space to commit on each change to the park fees. I don't know how you would ever organize the commits and which ones are the most important to the people of NM. I would like to say that you can do the study but we have a state legislature should approve all changes. We already have some Government affiliates pushing back on changes. I think we need more time and commits to do what's right for all our parks. Thank you.
