CAUTION: This email originated outside of our organization. Exercise caution prior to clicking on links or opening attachments.

I feel that the elimination of Annual Passes would SEVERELY hinder out-of-state visitors from visiting New Mexico State Parks... HAVE SOME FORESIGHT!!! Do you realize how many YouTube channels promote the Annual Pass which in turn helps our local businesses? You're REALLY making a mistake!!!

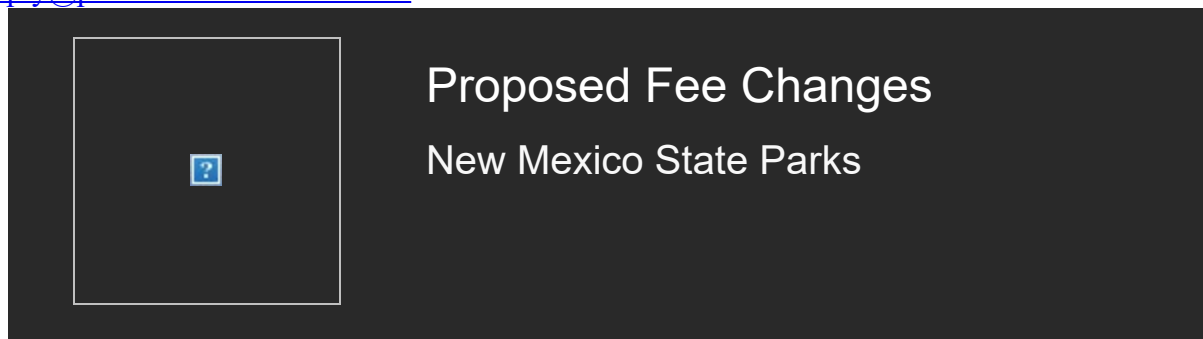

Your poor decisions not only affect your internal needs but will DESTROY our local economies that RELY on out-of-state tourism!!! I am SO DISAPPOINTED!

While you may have looked at other surrounding state fees, **New Mexico is NOT Colorado**. I was at Hyde Memorial Park in September and water was limited to the Ranger Station and they said it's an ongoing problem. I've also heard that the dump stations at Storey Lake have been broken for 3 years???

Think of all of the FREE ADVERTING that YouTubers give our New Mexico State Parks... I think you should make all of the changes you want, but KEEP the Annual Passes.

Thanks

Hello,

NM State Parks Division is reaching out to our loyal customers to provide you with important information regarding proposed changes to our fees structure and park rules.

State Parks has 35 locations in 25 of New Mexico's 33 counties. State Parks rely heavily on self-generated revenue through entrance and camping fees, concessions, and other related revenue streams to accomplish its mission of enhancing natural and cultural resources, providing first-class recreational and education facilities and opportunities, and promoting public safety to benefit and

enrich the lives of more than five million visitors each year. State Park's current fees, which are set by rule, have not been updated in decades and have not kept pace with inflation. NM State Parks are decades behind surrounding states when it comes to our fees structure. Adjustments are necessary to better support park operations and maintain our beautiful landscapes with diverse natural and cultural resources for future generations.

To address these concerns, NM State Parks Division completed an extensive evaluation of our fees structure and compared our rates to surrounding states as well as considered the impacts of inflation. The principal objective of the Fees Study was to explore options to adjust fees to address that gap to both improve the agency's financial position while also enhancing the Division's mission to maintain affordable state park access for New Mexico citizens and visitors to our state. Based on the completed study, the NM State Parks Division has proposed several revisions to our rules.

Key recommendations from our Fees Study include:

- Elimination of day-use fees for New Mexico residents.
- Implementation of a non-resident day-use fee.
- Eliminating Annual Passes.
- Adjusting camping and utility fees.
- Adjusting boat registration and launching fees.
- Adjusting entrance fees at Living Desert Zoo and Gardens State Park and Smokey Bear Historical Park.

The NM State Parks Division is in the process of soliciting public input on our recommended rule revisions. We are holding informational meetings across the state to provide information on our recommendations to the public. We encourage you to review our recommendations and meeting schedule in full on our website at www.emnrd.nm.gov/spd/public-meetings/. To submit comments on our proposed revisions, please email EMNRD-ParksComments@emnrd.nm.gov or mail your comments to EMNRD-State Parks Division, 1220 S. St. Francis Dr., Santa Fe, NM 87505.
