

RFP #26-5100-26-00001
As-Needed Engineering Services
Response to Questions and Clarifications
April 20, 2026

Questions/Answers

1. Page 18 includes a proposal outline that references a section titled “Experience with Engineering Projects in New Mexico.” However, this section is not identified elsewhere in the RFP, while a “Project Management” section is included in other portions of the document but does not appear in the outline. Please confirm whether the proposal should include a Project Management section and whether the Experience with Engineering Projects in New Mexico section is not required?

Answer: Section III.C.C.4 of the Technical Proposal Outline should read “Project Management” per Section IV.B and V.A. The reference in Section III.C.C.4 to “Experience with Engineering Projects in New Mexico” should be deleted.

2. Additionally, the order of the Technical Criteria differs between Page 18 and the remainder of the RFP. The Page 18 outline lists:
 1. Organizational Experience
 2. Capacity and Capability
 3. Past Record of Performance
 4. Experience with Engineering Projects in New Mexico (or Project Management)

In contrast, the rest of the RFP presents the order as:

1. Organizational Experience
2. Past Record of Performance
3. Capacity and Capability
4. Project Management

Please confirm the correct section order and overall proposal format to be followed?

Answer: The proposal format should follow the items listed in Sections IV.B and V.A.

3. Are the cover, table of contents, proposal summary, and required forms excluded from the 30-page limit?

Answer: The Cover, Table of Contents, and required forms are excluded from the 30-page limit. The Proposal Summary is optional so if the Offeror chooses to include it, it will be counted as part of the 30-page limit.

4. May we use EMNRD staff as references?

Answer: EMNRD staff that are outside the scope of this RFP, i.e. State Parks Division, may be used as references.
