NOTICE

WASTE RULE QUARTERLY REPORTING REQUIREMENTS FOR STAKEHOLDER REVIEW

August 13, 2021

In accordance with 19.15.27 and 19.15.28 NMAC, operators are required to start collecting data beginning October 1, 2021 for quarterly reports due in February and May 2022.

The Oil Conservation Division (OCD) is requesting stakeholder feedback on the draft files posted on [OCD's Announcements web page](#) which illustrate the types of data and calculations required in the quarterly reports. The draft files are in excel file format for ease of illustration and feedback, but the quarterly reports will be submitted electronically through OCD's e-permitting portal. OCD intends to issue additional guidance regarding the required format for electronic submission of the quarterly reports at a later date.

OCD will accept stakeholder feedback on the draft files no later than **COB August 27, 2021**. Submit feedback to EMNRD.Wasterule@state.nm.us.
